WorkForce DS-970

Production-level scanning with easy-to-use advanced processing capabilities for effortless and efficient document management.

Create a better business environment with the support of a global leader in document scanning. When the goal is getting documents to the right place as fast as possible, trust in the WorkForce DS-970 - Epson's fastest scanner. High performance matched with an endurance with easy-to-use features that put you in control of your documents.

Ultimate performance

Epsons' fastest A4 document scanner offers class-leading performance[1]. With a 100-page ADF, 85ppm/170ipm scanning speed and continuous scanning with its automatic feed mode, the WorkForce DS-970 gets through large jobs quickly and efficiently. Scroll through pre-defined jobs easily using the intuituve panel and get your documents to the right place in just a few presses of a button. TWAIN, WIA and ISIS drivers are available for enhanced compatibility with document management systems.

Efficient document processing

Stay in control of the document process with a scanner capable of scanning a wide range of media from 27gsm to 413gsm and a long paper scanning mode up to 6096mm. Slow mode decreases document friction by reducing the speed of the rollers, making it easier to capture fragile or damaged documents, without increasing file sizes. The Active Separation Roller System prevent document double feeds, ensuring that every piece of paper gets scanned, and the Double Feed Detection Skip (DFDS) function means you can scan difficult media like envelopes or documents with post-it notes.
