QPAD-HRSW

Height-Adjustable Rolling Security Workstation Cart
for 7-14 Inch Tablets

Easily adjusts for horizontal and vertical views

This workstation cart gives you nearly limitless angle-adjustment and all of the mobility of a smaller wheeled stand, making it a perfect addition to a nurse's station, classroom, tradeshow, or conference room. Your tablet is secured by a unique tri-grip adjustable holder, which tilts and rotates 360 degrees on an angle-adjustable arm. Your tablet stays locked in place with a steel security cable, which locks the holder shut and anchors the holder to the cart or other permanent fixture. The tablet stand's arm is attached to the end of a spacious work surface, perfect for a keyboard, power supply, or other accessories. A dedicated power-strip compartment located underneath ensures that your charge cables stay connected and out of sight. The cart also features a smooth, intuitive standing desk style height-adjustment mechanism. Simply grab the two adjustment handles on the cart's underside, and gently pull to achieve your desired height. 4 attachable, locking swivel casters give you easy rolling on flat surfaces.

Features:

- Size-adjustable tri-grip tablet holder rotates 360 degrees
