HPE Storage File Controller Rec DVD 5.04.0b	No	Recovery Solution

DEFINITIONS

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement or Supporting Manual.

Term	Definition
Recovery Solution	Solution provided to End-User to recover a product Image for re-installation of an embedded image that was originally licensed and pre-installed in a system

ADDITIONAL LICENSE TERMS

MICROSOFT SOFTWARE LICENSE TERMS

MICROSOFT WINDOWS STORAGE SERVER 2016 STANDARD AND WORKGROUP

These license terms are an agreement between you and:

- the server manufacturer that distributes the software with the server; or
- the software installer that distributes the software with the server.

Please read them. They apply to the software named above, which includes the media on which you received it, if any. The terms also apply to any Microsoft:

- updates,
- supplements,
- Internet-based services, and
- support services

For this software, unless other terms accompany those items. If so, those terms apply. If you obtain updates or supplements directly from Microsoft, then Microsoft, and not the manufacturer or installer, licenses those to you. Printed paper license terms, which may come with the software, take the place of any on-screen license terms.

By using the software, you accept these terms. If you do not accept them, do not use the software. Instead, contact the manufacturer or installer to determine its return policy for a refund or credit.

As described below, using some features also operates as your consent to automatic updates and the transmission of certain standard computer information for Internet-based services.

If you comply with these license terms, you have the rights below for each server you properly license.

1. OVERVIEW

- a. Software. The software includes:
 - I. server software; and
 - II. additional software that may only be used with the server software.
- b. License Model. The software is licensed based on the number of instances of server software that you run, and either:
 - I. the number of processors in the physical hardware for Windows Storage Server Standard; or
 - II. the number of user accounts that access instances of server software for Windows Storage Server Workgroup.
- c. Licensing Terminology
 - I. Instance. You create an "instance" of software by executing the software's setup or install procedure. You also create an instance of software by duplicating an existing instance. References to software in this agreement include "instances" of the software.
 - II. Run an Instance. You "run an instance" of software by loading it into memory and executing one or more of its instructions. Once running, an instance is considered to be running (whether or not its instructions continue to execute) until it is removed from memory.
 - III. Operating System Environment. An "operating system environment" is:
 - (i). all or part of an operating system instance, or all or part of a virtual (or otherwise emulated) operating system instance that enables separate machine identity (primary computer name or similar unique identifier) or separate administrative rights, and
 - (ii). instances of applications, if any, configured to run on the operating system instance or parts identified above.

There are two types of operating system environments: physical and virtual.

A physical operating system environment is configured to run directly on a physical hardware system. The operating system instance used to run hardware virtualization software (e.g., Microsoft Hyper-V Server or similar technologies) or to provide hardware virtualization services (e.g., Microsoft virtualization technologies) is considered part of the physical operating system environment.

A virtual operating system environment is configured to run on a virtual (or otherwise emulated) hardware system.

A physical hardware system can have either or both of the following:

 - (i). one physical operating system environment, and
 - (ii). one or more virtual operating system environments.
 - IV. Server. A server is a physical hardware system or device capable of running server software. A hardware partition or blade is considered to be a separate physical hardware system.
 - V. Assigning a License. To assign a license means simply to designate that license to one device or user.

2. USE RIGHTS

a. Windows Storage Server Standard

Assignment of the License to the Server. The software license is permanently assigned to the server with which you acquired the software. That server is the licensed server for that particular license. A hardware partition or blade is considered to be a separate server. You may not assign the same license to more than one server.

Running Instances of the Server Software. You may run, at any one time:

- I. one instance of the server software in one physical operating system environment, and
- II. for each license you assign to the server, up to two instances of the server software in virtual operating system environments (only one instance per virtual operating system environment).

If you run all permitted instances at the same time, the instance of the server software running in the physical operating system environment may be used only to:

- I. run hardware virtualization software,
- II. provide hardware virtualization services,
- III. run software to manage and service operating system environments on the licensed server.

b. Windows Storage Server Workgroup

Assignment of the License to the Server. The software license is permanently assigned to the server with which you acquired the software. That server is the licensed server for that particular license. A hardware partition or blade is considered to be a separate server. You may not assign the same license to more than one server.

Running Instances of the Server Software. You may run, at any one time, one instance of the server software in one physical or virtual operating system environment on the licensed server.

Using the Server Software. You may install and use one copy of the server software on one licensed server (physical or virtual). Up to 50 users can access and use the server software on that server as long as:

- I. each such user has an assigned user account, and
- II. the user accesses the server software through that account.

You may reassign a user account from one user to another provided that the reassignment does not occur within 90 days of the last assignment.

- c. Running Instances of the Additional Software. You may run or otherwise use any number of instances of additional software listed on the website specified below in physical or virtual operating system environments on any number of devices. You may use additional software only with the server software. For a list of additional software, visit (aka.ms/additionalsoftware).
- d. Creating and Storing Instances on Your Servers or Storage Media. For each software license you acquire you may create and store any number of instances of the software on any of your servers or storage media. This may be done solely to exercise your right to run instances of the software under any of your licenses as described in the applicable use rights (e.g., you may not distribute instances to third parties).
- e. Included Microsoft Programs. The software contains other Microsoft programs. These license terms apply to your use of those programs.

3. ADDITIONAL LICENSING REQUIREMENTS AND/OR USE RIGHTS

- a. Specific Use. The manufacturer or installer designed this server for a specific use. You may only use the software for that use. You may not use the software to support additional software programs or functions, other than utilities or similar software used solely for administration, performance enhancement, preventative maintenance, or to provide complimentary data storage functionality for this server.
- b. Limitation on Functions Supported by the Software. The manufacturer or installer licenses you to use the server software to support only the base functions as provided and installed on this server. You are not licensed to use the server to run or support:
 - I. enterprise database software (such as Microsoft SQL Server), except non-enterprise engines such as Microsoft SQL Server Express Edition. The server software also may run or support enterprise database engines (including Microsoft SQL Server) that are integrated in and used only to support the server software as part of the specific use for which the manufacturer or installer designed this server,
 - II. enterprise resource planning (ERP) software,
 - III. messaging or enterprise mail,
 - IV. Microsoft Exchange or Microsoft SharePoint Portal Server,

- V. team collaboration software,
- VI. web-based time management applications that address appointment, meeting and other calendar items.

Additional Limitations on Functions for Windows Storage Server Workgroup:

- I. more than 6 disk drives,
- II. NVMe-enabled hardware, and/or
- III. the external Serial Attached SCSI (SAS) interconnect.

These limitations do not restrict use of the server for data management (such as providing storage and backup functions) for the software identified above.

- c. No Windows Server CALs Required. Servers that access or use functions of Windows Storage Server software licensed under these license terms do not require a client access license (CAL) for Windows Server. Obtaining a CAL for any Microsoft product does not grant you rights to use functions of the server software not licensed under these license terms.
 - d. Multiplexing. Hardware or software you use to:
 - I. pool connections,
 - II. reroute information,
 - III. reduce the number of devices or users that directly access or use the software,
 - IV. reduce the number of devices or users the software directly manages,
 (sometimes referred to as “multiplexing” or “pooling”), does not reduce the number of licenses of any type that you need.
 - e. Font Components. While the software is running, you may use its fonts to display and print content. You may only:
 - I. embed fonts in content as permitted by the embedding restrictions in the fonts; and
 - II. temporarily download them to a printer or other output device to print content.
 - f. Icons, images, and sounds. While the software is running, you may use but not share its icons, images, sounds, and media. The sample images, sounds, and media provided with the software are for your non-commercial use only.
 - g. No Separation of Server Software. You may not separate the server software for use in more than one operating system environment under a single license, unless expressly permitted. This applies even if the operating system environments are on the same physical hardware system.
 - h. Maximum Instances. The software or your hardware may limit the number of instances of the server software that can run in physical or virtual operating system environments on the server.
 - i. Additional Functionality. Microsoft may provide additional functionality for the software. Other license terms and fees may apply.
4. MANDATORY ACTIVATION. Activation associates the use of the software with a specific device. During activation, the software may send information about the software and the device to Microsoft. This information includes the version, language, and product key of the software, the Internet protocol address of the device, and information derived from the hardware configuration of the device. For more information, see (aka.ms/mandatoryactivation). By using the software, you consent to the transmission of this information. If properly licensed, you have the right to use the version of the software installed during the installation process up to the time permitted for activation. Unless the software is activated, you have no right to use the software after the time permitted for activation. This is to prevent its unlicensed use. You are not permitted to bypass or circumvent activation. If the device is connected to the Internet, the software may automatically connect to Microsoft for activation. You can also activate the software manually by Internet or telephone. If you do so, Internet and telephone service charges may apply. Some changes to your computer components or the software may require you to reactivate the software. The software may remind you to activate it until you do.

5. VALIDATION

- a. If the manufacturer or installer activated the software for you, you may not be asked to activate the software when you first use it. The software will from time to time validate the software and update or require download of the validation feature of the software. Validation verifies that the software has been activated and is properly licensed. Validation also permits you to use certain features of the software or to obtain additional benefits. For more information, see (aka.ms/genuine).
- b. During a validation check, the software will send information about the software and the device to Microsoft. This information includes the version and product key of the software, and the Internet protocol address of the device. Microsoft does not use the information to identify or contact you. By using the software, you consent to the transmission of this information. For more information about validation and what is sent during a validation check, see (aka.ms/genuineprivacy).

- c. If, after a validation check, the software is found not to be properly licensed, the functionality of the software may be affected. For example, you may:
- I. need to reactivate the software, or
 - II. receive reminders to obtain a properly licensed copy of the software,
- or you may not be able to:
- I. use or continue to use some of the features of the software, or
 - II. obtain certain updates or upgrades from Microsoft.
- d. You may only obtain updates or upgrades for the software from Microsoft or authorized sources.
6. **PRIVACY; INTERNET-BASED SERVICES.** Microsoft provides Internet-based services with the software. It may change or cancel them at any time.
- a. **Consent for Internet-Based Services.** Some of the software features send or receive information when using those features. In some cases, you will not receive a separate notice when they connect. You may switch off these features or you can choose not to use them. By accepting this agreement and using these features, you agree that Microsoft may collect, use, and disclose the information as described in the Privacy Statement (aka.ms/winserverprivacy), and as may be described in the user documentation associated with the software features (see aka.ms/winservertelemetry).
7. **DATA STORAGE TECHNOLOGY.** The server software may include data storage technology called Windows Internal Database. Components of the server software use this technology to store data. You may not otherwise use or access this technology under this agreement.
8. **SCOPE OF LICENSE.** The software is licensed, not sold. This agreement only gives you some rights to use the software. The manufacturer or installer, and Microsoft reserve all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. For more information, see the software documentation or contact the manufacturer or installer. You may not:
- a. work around any technical limitations in the software;
 - b. reverse engineer, decompile, or disassemble the software, except and only to the extent that applicable law expressly permits, despite this limitation;
 - c. use the software's files and components within another operating system or application running on another operating system;
 - d. make more copies of the software than specified in this agreement or allowed by applicable law, despite this limitation;
 - e. publish the software for others to copy;
 - f. rent, lease or lend the software; or
 - g. use the software for commercial software hosting services.
- Rights to access the software on any device do not give you any right to implement Microsoft patents or other Microsoft intellectual property in software or devices that access that device.
9. **BACKUP COPY.** You may make one backup copy of the software media. You may only restore the backup image to the same server from which the backup was created. You may use it only to create instances of the software.
10. **PROOF OF LICENSE.** If you acquired the software on the server, a disc, or other media, your proof of license is the genuine Certificate of Authenticity label that comes with the server. To be valid, this label must be affixed to the server or appear on the manufacturer's or installer's software packaging. If you receive the label separately, it is invalid. You should keep the label on the server or packaging to prove that you are licensed to use the software. To identify genuine Microsoft software, see (aka.ms/genuine).
11. **TRANSFER TO A THIRD PARTY.** You may transfer the software only with the licensed server, the Certificate of Authenticity label, any additional licenses originally included with the server, and this agreement, directly to a third party. Before any permitted transfer, the other party must agree that this agreement applies to the transfer and use of the software. You may not retain any instances of the software unless you also retain another license for the software.

Nothing in this agreement prohibits the transfer of software to the extent allowed under applicable law if the distribution right has been exhausted.

12. NOTICE ABOUT the H.264/AVC, MPEG-4 VISUAL Standards, and the VC-1 Video Standards. This software may include H.264/AVC, MPEG-4 and/or VC-1 decoding technology. MPEG LA, L.L.C. requires this notice:

THIS PRODUCT IS LICENSED UNDER THE H.264/AVC, THE MPEG-4 PART 2 AND THE VC-1 VISUAL PATENT PORTFOLIO LICENSES FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE ABOVE STANDARDS ("VIDEO STANDARDS") AND/OR (ii) DECODE AVC, MPEG-4 PART 2 AND VC-1 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE SUCH VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C; see mpegla.com.

13. ADOBE FLASH PLAYER. The software includes Adobe Flash Player that is licensed under terms from Adobe Systems Incorporated at (aka.ms/adobeflash). Adobe and Flash are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.

14. THIRD PARTY PROGRAMS. The software may include third party programs that the manufacturer or installer, not the third party, licenses to you under this agreement. Notices, if any, for the third party programs are included for your information only.

15. EXPORT RESTRICTIONS. The software is subject to United States export laws and regulations. You must comply with all domestic and international export laws and regulations that apply to the software. These laws include restrictions on destinations, end users, and end use. For additional information, see (aka.ms/exporting).

16. SUPPORT SERVICES. Contact the manufacturer or installer for support options. Refer to the support number provided with the software. For updates and supplements obtained directly from Microsoft, Microsoft provides support as described at (aka.ms/mssupport).

17. ENTIRE AGREEMENT. This agreement (including the warranty below), and the terms for supplements, updates, and Internet-based services and support services that you use, are the entire agreement for the software and support services.

18. APPLICABLE LAW

- a. United States. If you acquired the software in the United States, Washington state law governs the interpretation of this agreement and applies to claims for breach of it, regardless of conflict of laws principles. The laws of the state where you live govern all other claims, including claims under state consumer protection laws, unfair competition laws, and in tort.
- b. Outside the United States. If you acquired the software in any other country, the laws of that country apply.

19. LEGAL EFFECT. This agreement describes certain legal rights. You may have other rights under the laws of your state or country. You may also have rights with respect to the party from whom you acquired the software. This agreement does not change your rights under the laws of your state or country if the laws of your state or country do not permit it to do so.

Canada. You can choose to stop receiving updates by turning off the automatic update feature or Internet access. Refer to the product documentation to learn how to turn off updates for your specific device or software.

20. SECONDARY BOOT AND RECOVERY COPIES OF THE SOFTWARE

- a. Secondary Boot Copy. If a secondary boot copy of the server software is installed on the device, you may access, boot from, display, and run it solely in the event of a failure, malfunction, or corruption of the primary operating copy of the server software, and only until the primary operating copy has been repaired or reinstalled. You are not licensed to boot from and use both the primary operating copy and the secondary boot copy of the server software at the same time.
- b. Recovery Copy. You may use any recovery copy of the server software provided solely to repair or reinstall the server software on the device.

21. LEASED HARDWARE. If you lease the device from the manufacturer or installer, the following additional terms shall apply: (i) you may not transfer the software to another user as part of the transfer of the device, whether or not a permanent transfer of the software with the device is otherwise allowed in these license terms; (ii) your rights to any software upgrades shall be determined by the lease you signed for the device; and (iii) you may not use the software after your lease terminates, unless you purchase the device from the manufacturer or installer.

22. NOT FAULT TOLERANT. The software is not fault tolerant. The manufacturer or installer installed the software on the device and is responsible for how it operates on the device.

23. RESTRICTED USE. The Microsoft software was designed for systems that do not require fail-safe performance. You may not use the Microsoft software in any device or system in which a malfunction of the software would result in foreseeable risk of injury or death to any person.

24. LIMITATION ON AND EXCLUSION OF DAMAGES. Except for any refund the manufacturer or installer may provide, you cannot recover any damages, including consequential, lost profits, special, indirect, or incidental damages.

This limitation applies to:

- anything related to the software, services, content (including code) on third-party Internet sites, or third-party programs; and
- claims for breach of contract, breach of warranty, guarantee, or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if:

- repair, replacement, or a refund for the software does not fully compensate you for any losses; or
- the manufacturer or installer, or Microsoft knew or should have known about the possibility of the damages.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. They also may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential, or other damages.

LIMITED WARRANTY

A. LIMITED WARRANTY. If you follow the instructions, the software will perform substantially as described in the Microsoft materials that you receive in or with the software.

References to “limited warranty” are references to the express warranty provided by the manufacturer or installer. This warranty is given in addition to other rights and remedies you may have under law, including your rights and remedies in accordance with the statutory guarantees under local Consumer Law.

B. TERM OF WARRANTY; WARRANTY RECIPIENT; LENGTH OF ANY IMPLIED WARRANTIES. The limited warranty covers the software for 90 days after acquired by the first user. If you receive supplements, updates, or replacement software during those 90 days, they will be covered for the remainder of the warranty or 30 days, whichever is longer. If the first user transfers the software, the remainder of the warranty will apply to the recipient.

To the extent permitted by law, any implied warranties, guarantees, or conditions last only during the term of the limited warranty. Some states do not allow limitations on how long an implied warranty lasts, so these limitations may not apply to you. They also might not apply to you because some countries may not allow limitations on how long an implied warranty, guarantee, or condition lasts.

C. EXCLUSIONS FROM WARRANTY. This warranty does not cover problems caused by your acts (or failures to act), the acts of others, or events beyond the reasonable control of the manufacturer or installer, or Microsoft.

D. REMEDY FOR BREACH OF WARRANTY. The manufacturer or installer will, at its election, either (i) repair or replace the software at no charge, or (ii) accept return of the software together with the server for a refund of the amount paid, if any. The manufacturer or installer may also repair or replace supplements, updates, and replacement software or provide a refund of the amount you paid for them, if any. Contact the manufacturer or installer about its policy. These are your only remedies for breach of the limited warranty.

E. CONSUMER RIGHTS NOT AFFECTED. You may have additional consumer rights under your local laws, which this agreement cannot change.

F. WARRANTY PROCEDURES. Contact the manufacturer or installer to find out how to obtain warranty service for the software. For a refund, you must comply with the manufacturer’s or installer’s return policies.

G. NO OTHER WARRANTIES. The limited warranty is the only direct warranty from the manufacturer or installer and Microsoft. The manufacturer or installer, and Microsoft give no other express warranties, guarantees, or conditions. Where allowed by your local laws, the manufacturer or installer, and Microsoft exclude implied warranties of merchantability, fitness for a particular purpose, and non-infringement. If your local laws give you any implied warranties, guarantees, or conditions, despite this exclusion, your remedies are described in the Remedy for Breach of Warranty clause above, to the extent permitted by your local laws.

FOR AUSTRALIA ONLY. References to “Limited Warranty” are references to the warranty provided by the manufacturer or installer. This warranty is given in addition to other rights and remedies you may have under law, including your rights and remedies in accordance with the statutory guarantees under the Australian Consumer Law. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Goods presented for repair may be replaced by refurbished goods of the same type rather than being replaced. Refurbished parts may be used to repair the goods.

For further information regarding this warranty and to claim expenses in relation to the warranty (if applicable), please contact the manufacturer or installer; see the contact information provided in the system packaging.

H. LIMITATION ON AND EXCLUSION OF DAMAGES FOR BREACH OF WARRANTY. The Limitation on and Exclusion of Damages clause above applies to breaches of this limited warranty.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. You may also have other rights that vary from country to country.
