

4XEM DisplayPort to HDMI Adapter 4K @ 30Hz

4XEM Part- 4XDPHDMI4K30HZ

This DisplayPort to HDMI adapter lets you output HDMI video and audio from a DP device, with support for 4K at 30Hz. The adapter lets you harness the video capabilities that are built into your DisplayPort connection, to deliver the astonishing quality of a 4K 30Hz display. This makes it easier for you to multitask while using multiple monitors to work on resource-demanding applications.

**Problem it solves:** The adapter offers the ability to output HDMI video and audio from a DisplayPort device. Increase your connections with 4XEM.

## Features

- Harness the video capabilities that are built into your DisplayPort connection for, to deliver the astonishing quality at 4K 30Hz display
- Works with HDMI 2.0 displays that can deliver output resolutions 30Hz
- This adapter can support bandwidth up to 18Gbps, making it the ideal solution for performing high-resolution tasks such as editing 4K video
- Backward compatible with 1080p displays, which ensures that it will work with lower resolution displays such as TVs or projectors around your home or office
- To ensure compatibility with any DisplayPort output, the DP adapter offers active conversion
- Active video conversion is required to maintain 4K resolutions when converting DisplayPort to HDMI
- An active DP adapter is ideal for outputting 1080p resolutions because it will work with graphics cards that can't output multimode DP++ signals, such as ATI Eyefinity cards

## Application

- Home
- Office
- Set-up
- Connections
