

Mini DisplayPort™ to VGA / DVI / HDMI® Adapter – All-in-One mDP Converter For MacBook® – White

StarTech ID: MDP2VGDVHDW

The MDP2VGDVHDW Mini DisplayPort to VGA, DVI or HDMI converter offers a 3-in-1 solution for connecting an mDP source such as a Thunderbolt™-enabled MacBook Pro® / MacBook Air® to a VGA, DVI, or HDMI Display. Ensuring compatibility with almost any display, television or projector, this compact and lightweight adapter offers the ideal plug-and-play solution for travel, or BYOD (Bring Your Own Device) applications around the office.

You can walk into any boardroom and be ready to connect, even if you don't know what connection ports are available. The MDP2VGDVHDW maximizes the audio/video connectivity of your MacBook® by offering three different output ports, in a single compact adapter.

The 3-in-1 converter is compatible with Intel® Thunderbolt, when connected directly to a supporting DisplayPort over Thunderbolt I/O port. Plus, because the converter cable supports video resolutions up to 1920x1200/1080p you can convert a Mini DisplayPort video source to VGA, HDMI, or DVI without sacrificing video quality.

The Mini DisplayPort converter requires no power adapter and maximizes portability by easily travelling in your laptop bag with a small footprint and lightweight design.

The MDP2VGDVHDW features a sleek white design that looks great next to your MacBook® Pro or MacBook Air®, and is backed by a 2-year StarTech.com warranty and free lifetime technical support.
