FIRMWARE UPGRADE GUIDE

Requirements:

- Windows PC
- Jabra PC Suite (download the latest version at jabra.com/pcsuite).

Follow these steps to upgrade the Jabra LINK 14201-33 firmware:

1 Disconnect the Jabra LINK 14201-33 from the headset and the desk phone.

2 Pull out the rubber plug from the Jabra LINK 14201-33, as illustrated.

3 Connect a standard micro USB cable to the Jabra LINK 14201-33 and the PC*.

* A micro USB cable can be purchased from Jabra as an accessory (#14201-26). The Jabra PRO 9400 Series and Jabra GO 6470 are supplied with a micro USB cable.

4 Start Jabra Control Center, and click Help > Check for updates. A list of connected Jabra devices will appear.

5 If an update is available for the Jabra LINK 14201-33, click Update.
