

Quick Setup Guide

Avaya IX Huddle Camera HC050

Congratulations on purchasing your PTZ HC050 Camera for the Avaya XT Series. This brings a high quality full HD video source to your endpoint, with HD 1080p 30 frames per second (fps), including 12x Optical Zoom, 16x Digital zoom (total 192x), and an optimal horizontal field of view for video conferencing rooms.

Package Content:

- Avaya HC050 Camera
- USB cable
- HC050 Wall Mount
- AC power adapter
- Remote Control
- Remote control batteries

CAUTION:

Make sure all units are switched off whenever connecting or disconnecting devices.

Setting Up this Device

The HC050 camera is compatible with Avaya Conferencing clients such as Spaces and IX Workplace and with third party conferencing clients such as Microsoft® Skype for Business, Microsoft® Teams, Zoom®, BlueJeans®. The Avaya HC050 Camera can be also used as a first or additional camera on XT4300, XT5000, and XT7100.

1. Use the HC050 as main camera for XT Series

Step 1.

Insert the USB connector to its socket at the rear of the camera.

Step 2.

Attach the USB connector to the USB upper socket at the rear of the XT Series endpoint (XT4300, XT5000 or XT7100).

Step 3.

If using the HC050 as a first camera, you should enable it as the Default Camera in: **Configure > Advanced > I/O connections > Cameras > General > Default Camera: USB**

2. Use the HC050 Camera as a USB camera for your PC or MAC conferencing client

Step 1.

Connect the HC050 Camera to your laptop.

Step 2.

Launch the conferencing App and select the HC050 device from the proper setting/user preference section.

Step 3.

Under this configuration, the HC050 camera can be controlled using the remote control provided.
