

8-Port KVM Switch, PS/2 (GCS78)

8-Port KVM Switch, PS/2

Model # GCS78

Description

US and Canada part number only.

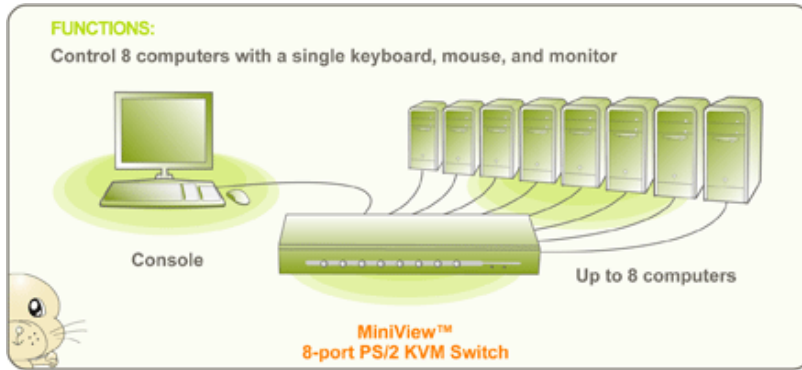

Your business is growing faster than you expected and four computers simply aren't enough to meet your needs? Not a problem. IOGEAR's new 8-port PS/2 KVM is just the tool you need to help reduce the need for redundant hardware. Now you can control up to eight computers with a single keyboard, monitor and mouse. Just think of the time, space and money you'll save. This 8-port KVM switch comes with built-in AutoScan mode that lets you conveniently monitor every attached computer for a specified amount of time, while our Hot Key technology allows you to switch ports easily using the keyboard. With its 1U, 19" rack-mountable casing and status-monitoring LEDs, the IOGEAR 8-port PS/2 is the perfect switch for your home, small business or any other multi-computer environment.

Features

- Use one keyboard, monitor and mouse to control up to 8 computers
- Connected computers can be added or removed from the setup without disturbing the other computers
- Plug-n-Play monitor support; high-resolution video support (up to 1920 x 1440)
- Easy to install - no software required
- Easy to operate - use push button at the front and hot keys to switch port
- Built in AutoScan mode
- LEDs allow for easy status monitoring
