

S-board 840

A great compact keyboard. Everything's included! With two USB ports.

The S-board 840, one of the best equipped keyboards on the market for years.

With its compact size, you will work in a healthier and more comfortable way. The S-board 840 meets the ergonomic requirements for keyboards e.g., a scissor mechanism, a key centre distance of 19mm, and concave keys in white with dark lettering. Those features guarantee a convenient and precisely way of typing, and minimal typing errors.

The hot-keys, integrated multimedia keys, status LEDs, and the two USB ports promise a productive way of working. Avoid strain in your lower arms and shoulders and start working ergonomic and comfortable with the S-board 840.

Ergonomic background

A compact keyboard without the numeric keypad, which allows placing the mouse closer to the keyboard. Research shows that 90% of users do not use the numeric keypad, if ever. With a compact keyboard you work more comfortably, because it lowers the reaching distance to the mouse (Cook C. et al., 1998). This lightens the load on the forearms and shoulder. Dark letters on a clear background make reading easier (ISO 9241) and contribute to higher productivity (Snyder, 1990).
