# Orbit 130

## 1080P Full HD Compact Dash Camera

The Orbit 130 is a reliable starter dash cam to fit in your vehicle. This compact and sleek model gives you more windshield space and prevents you from driving with distractions. Shooting at 1080P you'll have full high definition video footage. Using a CMOS sensor, this will allow you to capture better well-lit videos in low light situations. A 120° wide viewing angle captures important details of the road such as signs and license plates. A G-Sensor is also built into the Orbit 130, so if the dash cam detects an impact, drastic braking, or hard swerve, it will automatically lock the recording as an emergency file so it won't be loop recorded over. An 8GB microSD card is included (supports up to 32GB), so once installed, the Orbit 122 can begin recording immediately.

### Full HD 1080P

Records in 1080p full HD resolution. This will smoothly capture clear video in fast moving scenes.

### Compact Design

Experience a high performance dashcam in a sleek, space-saving, and discreet design. Compact size meets all needs for daily recording purpose.

### 120° Viewing Angle

With a wider field of vision, you'll be able to capture more lanes of the road. You won't need to worry about missing those small details on the road such as license plates.

### G-Sensor for Emergency File Saving

The G-sensor is a gravity sensor that will sense any collision, swerve, or hard braking, and automatically lock the current video so it cannot be loop recorded over.

### Supports 32GB, 8GB MicroSD Card Included

A 8GB microSD card is included in the package, so you'll be set to install in your car and start recording. This device supports up to 32GB of external storage, around 5 hours of recording at 1080p.

## Specifications

**Resolution:** 1080p

**Image Sensor:** CMOS Sensor

**LCD Display:** 1.5" TFT

**Video Format:** .avi

**FOV:** 120°

**G-Sensor:** Yes

**Storage Memory:** 8GB included (Supports up to 32GB)

**Unit Dimensions:** 1.89" x 2.28" x 1.3" in

**Unit Weight:** 0.08 lbs

**Mount:** Suction Cup

**Interface:** Mini-USB

**Power Supply:** 180mAh Li-ion battery embedded

**Operating Temperature:** 14°F~149°F / -10°C~65°C
