Model #: B126-1P0

HDMI Over Cat5 Passive Extender Remote Unit

Highlights

- For use with the [B126-002](#) and [B126-004](#) transmitter units
- HDCP and 3D compatible
- Compatible with both stereo audio and 7.1 channel surround sound audio (*7.1 channel surround sound signal will be Multi-Channel or PCM*)
- Supports 24-bit True Color (8-bits per channel)
- No external power required
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Description

The B126-1P0 is a receiver unit that is used with the [B126-002](#) and [B126-004](#) transmitter units. It extends a 1080p (60Hz) signal to a monitor up to 50 ft. away using Cat5e/6 cable. To achieve maximum distance and resolution, use 24Awg Solid Wire Cat5e/6 cable. (Tripp Lite's N202-Series) No power is required, and its built-in HDMI male connector plugs directly into a monitor without the need for an additional cable. Supports 24-bit True Color (8-bits per channel), HDCP, 3D, and both stereo audio and 7.1 channel surround sound audio (*7.1 channel surround sound signal will be Multi-Channel or PCM*).

Installation is simple. Connect the transmitter unit to an HDMI source using a Tripp Lite P568-Series HDMI cable (not included). Connect the built-in HDMI connector on the receiver unit directly to a display. Finally, connect the receiver to the RJ45 port on the transmitter using a single Cat5e/6 cable.

- A 1080p (60Hz) signal can be transmitted up to 50 ft.
- A 1080i (60Hz) signal can be transmitted up to 100 ft.
- Cannot be used for a 3D signal

Package Includes

- B126-1P0 HDMI Over Cat5 Passive Extender Remote Unit
- Owner's manual

Features

- For use with [B126-002](#) and [B126-004](#) transmitter units.
