

VeriMark™ Guard USB-A Fingerprint Key - FIDO2, WebAuthn/CTAP2, & FIDO U2F - Cross Platform

The latest in biometric authentication technology, at your fingertips.

K64708WW

Product Description

The VeriMark™ Guard USB-A Fingerprint Key - FIDO2, WebAuthn/CTAP2, & FIDO U2F - Cross Platform offers the latest in biometric authentication for any device, regardless of OS. FIDO2 and FIDO U2F certified with expanded authentication options, including strong single-factor (passwordless), dual, multi-factor, and tap-and-go*. Maximum compatibility with web services including Google, Facebook, and Microsoft (for Windows Hello, refer to VeriMark or VeriMark IT), with support for Chrome, Edge, Firefox, and Safari. Exceeds industry standards for false acceptance rate (FAR) and false rejection rate (FRR). Supports GDPR compliance and is TAA-compliant. *Tap-and-go combines a username and password with a simple tap on the fingerprint sensor to authenticate on U2F (Universal 2nd Factor) services.

Features

- Cross-platform compatibility, with support for most commonly used operating systems (Windows, macOS, iOS, and Chrome OS). Browser support includes Chrome, Edge, Firefox, and Safari.
- FIDO2 and FIDO U2F certified offers expanded authentication options, including strong single-factor (passwordless), dual, multi-factor, and tap-and-go
- Supports up to 10 fingerprints.
- Tap-and-go combines a username and password with a simple tap on the fingerprint sensor to authenticate on U2F (Universal 2nd Factor) services.
- Encrypted end-to-end security with Match-in-Sensor™ Fingerprint Technology combines superior biometric performance and 360° readability with anti-spoofing technology. Exceeds industry standards for false rejection rate (FRR 2%) and false acceptance rate (FAR 0.001%).
- Robust design features durable zinc alloy body with protective cover and keyring hole for easy transport when not attached to device, LED accepted/rejected indicator, and flared tail for easy grip.
- Can be used to support cybersecurity measures consistent with (but not limited to) such privacy laws and regulations as GDPR, BIPA, and CCPA. TAA-compliant, so it's ready for use in U.S. Federal Government institutions and organizations.
- Two-year warranty means you can rest assured knowing you're covered by Kensington.
