

VisionTek®

VisionTek Black Label Series 2GB PC3-10600 DDR3 1333MHz DIMM 240-Pin Memory Module

VisionTek Part# 900378

VisionTek's Black Label Series 2GB PC3-10600 DDR3 1333MHz DIMM 240-Pin Memory Module is for use in high performance PCs with Intel Core i3, i5, i7 and AMD Dual Channel and Triple Channel systems.

The Simple Performance Equation: More Memory = A Faster Computer

For use in high performance PCs with Intel Core i3, i5, i7 and AMD Dual Channel and Triple Channel systems. The Black Label Series is the ideal performance upgrade for PCs with Intel Core i3, i5, i7 and AMD Dual Channel and Triple Channel processor powered systems, as well as standard desktop machines to overclocked gaming and multimedia rigs. An easy DIY install, it's the most cost-effective solution to dramatically improving app and system responsiveness, gaming, and specific memory intensive usages such as video streaming over wireless networks. Every Black Label memory module is built and tested to the JEDEC standard to deliver assured speed and reliability. For peace of mind ownership, every module comes backed by our Limited Lifetime warranty.

SPECS:

Size: 1 x 2GB module
Technology: DDR3 SDRAM
Speed: PC3-10600 1333MHz
Latency Timings: CL9 (9-9-9-24)
Voltage: 1.5V
Pin Count: 240-pin DIMM
ECC: Non ECC
Signal Processing: Unbuffered
Noise Level: Low Noise 8-Layer PCB
JEDEC Specifications: Fully Compliant
RoHS: Certified
Warranty: Limited Lifetime
