

HPE DIGITAL LEARNER—SOLUTION PARTNER EDITION

ANYTIME, ANYWHERE LEARNING TO DEVELOP, RETAIN, AND ATTRACT TOP TALENT

HPE Digital Learner, part of the HPE learning-as-a-service (LaaS) solution, delivers a continuous learning channel which is reshaping every aspect of how companies attract and retain the best IT talent. Successful LaaS programs deliver high caliber talent and strategic skills to pave the way for exceptional business outcomes. Fifty percent of today's workforce is comprised of millennials, with that number growing to 75% by 2025.¹ Millennials work, think, consume information, and learn differently from past generations. They demand more from digital systems and business processes, and are less forgiving of companies that struggle to be progressive. This is where LaaS and digital learning thrive—convenient and flexible solutions to accommodate your pace, schedule, and learning preferences.

BUILD SKILLS AND PREPARE FOR CERTIFICATION

The HPE Digital Learner—Solution Partner Edition is created exclusively for HPE Partner Ready Solution and HPE Partner Ready for Services Delivery providers. It is a subscription-based, eLearning solution which covers a vast array of HPE technology, industry technology, and business skills training.

HPE Digital Learner—Solution Partner Edition delivers continuous learning through our modern online learning platform with 12 months of access to thousands of eLearning courses. The subscription includes unlimited access to our eLearning portal, where you'll find HPE and industry certification training, curated learning paths on HPE technology, IT and business skills training, personal development courses, and more—all available anytime, anywhere, and at your own pace.

Take advantage of the latest on:

- HPE certification training—select Accredited Technical Professional (ATP) and Accredited Solutions Expert (ASE) certification preparation
- Curated learning on HPE technology—servers, cloud, networking, storage, and more
- Industry certification preparation for popular certifications in cloud computing, cybersecurity, servers, service management, and more
- Training on IT industry trends such as artificial intelligence (AI), blockchain, digital transformation, and virtual reality
- Personal development training such as marketing, finance, and leadership

¹ [The \(Millennial\) Workplace of the Future Is Almost Here—These 3 Things Are About to Change Big Time](#), Peter Economy, Inc.com, January 2019.

As a subscription service, training costs are more predictable and provide flexibility to meet modern training needs. This innovative approach helps you:

- Develop, retain, and attract the best IT talent in the market
- Motivate and create a highly skilled workforce to drive better business outcomes
- Leverage a continuous learning channel to develop and refresh skills
- Cross train into new technology areas
- Predict and reduce training costs with minimal disruption to your business

HPE DIGITAL LEARNER—SOLUTION PARTNER EDITION SUBSCRIPTION COMPONENTS

TABLE 1. Components and features

Component	Description
HPE Digital Learner platform for delivery and learning	This advanced platform delivers eLearning content curated for the Customer or their team on an ongoing basis with digital badge incentives. Upon request, and provided the Customer has 10 or more users, a team may be created providing access to standard reporting and metrics, for outcome analysis of individuals and the team.
All HPE technology eLearning (Category 1 content packs)	Content packs organize a specific collection of eLearning content and are updated over time. This keeps skills up-to-date on the latest tools, technologies, and process methods. Many content packs are offered with simulated or virtual hands-on labs, which are integrated to help provide an effective, engaging learning experience. Category 1 content packs focus on HPE technologies. All subscription services include all Category 1 content packs. Category 1 content packs are subject to availability at the time of delivery. For a listing of available Category 1 content packs, visit hpe.com/ww/digitallearner-content .
Virtual Labs (vLabs)	Many HPE technology content packs include hands-on labs to reinforce learning. HPE vLabs provide access to remote and on-site hands-on preconfigured and dynamic training solutions.
Learning Paths	Learning paths within the HPE Digital Learner portal organize courses and create prerequisites for learners. HPE Digital Learner—Solution Partner Edition includes learning paths based on the Continuous Learning taxonomy from the HPE Tech Pro community.
Partner Ready Certification	This subscription includes content packs for HPE Partner Ready certifications, which are based on the original Partner Ready courseware. This eLearning training prepares learners for the HPE ATP—Hybrid IT Solutions and/or HPE ASE—Hybrid IT Solutions Architect certifications. For a listing of available HPE certification content packs, visit hpe.com/ww/digitallearnerpartner .

TABLE 1. Components and features (continued)

Component	Description
HPE certification exam vouchers from Pearson VUE	This subscription includes HPE Certification and Learning exam vouchers (two HPE0 and one HPE2 exam vouchers), from Pearson VUE, for HPE ATP and HPE ASE Hybrid IT certifications.
Post training learning checks (Learner Boosts)	Once the learner has completed an HPE branded technology course, questions related to the training are emailed to learners at specified intervals beyond the course. These questions are designed to reinforce lessons learned within the course to heighten learning retention over time.
Ask an Instructor	During the subscription term, learners may submit questions to an HPE subject matter expert (via Discussion Forums) while completing eLearning on HPE branded technologies.
Social learning: • Peer-to-community • Peer-to-peer	HPE Digital Learner is a gateway to the HPE digital community and provides a peer-to-community experience through online access to expert technologists for Q&A and peer mentoring. Learners may also share with each other and engage with HPE subject matter experts via Discussion Forums.
User achievements	Learners can earn points and user achievements as they progress through their learning. Also, where HPE Digital Learner teams exist, learners may view their standing from the leaderboard.
Expert Series recorded webinars	As part of the subscription service, learners have ongoing access to HPE Expert Series recorded webinars for playback within the HPE Digital Learner portal.
Select IT eLearning	To complement training on HPE technologies, the subscription service offers a wide variety of industry eLearning across technology, developer, business, digital transformation, leadership development, and productivity and collaboration tools. For a list of solutions and curriculums included, visit hpe.com/ww/digitallearner-content .

HPE DIGITAL LEARNER PORTAL ACCESS

HPE Digital Learner portal and eLearning access is typically available to enabled users of the subscription service 24x7, 365 days of the year, except during planned outages for which email notification is provided by HPE.

CUSTOMER RESPONSIBILITIES

For any HPE Digital Learner subscription service, the Customer will be responsible for ensuring that end-user network and equipment meet the minimum technical requirements as specified by HPE.

GENERAL PROVISIONS AND OTHER EXCLUSIONS

The HPE Digital Learner subscription services for an individual apply to one named user at time of purchase and are nontransferable. Any third-party training course or third-party-delivered training is excluded. These services are governed by the HPE Education Service Terms for the respective country located at education.hpe.com/ww/en/training/contactus.html.

Notwithstanding anything to the contrary, the following term shall apply with respect to cancellation by the Customer. The Customer may not terminate any of the subscription services set forth in this data sheet and any service features not used within the subscription term are forfeited. Accordingly, the Customer will not be entitled to a credit or refund for any unused services.

HPE will have access to Customer business contact information. As the controller of such information, HPE agrees to protect the Customer’s business contact information using appropriate technical and organizational measures and only use such information in accordance with HPE’s privacy policy (hpe.com/us/en/legal/privacy.html) and applicable laws (available upon request). HPE acknowledges that HPE has no right, title, or interest in any the Customer business contact information.

Where HPE discloses HPE employee personal data to the Customer or an HPE employee provides personal data directly to the Customer, the Customer agrees to protect such personal data using appropriate technical and organizational measures and only use that personal data in accordance with its privacy policies and applicable laws.

ORDERING INFORMATION

To obtain further information or to order an HPE Digital Learner subscription, contact a local HPE sales representative and refer to the product numbers in [Table 2](#). Also, this service may be purchased via redemption of [HPE Training Credits](#).
