

SD1700P USB-C Dual 4K Portable Mobile Dock with Qi Charging – 100W Power Pass Through

The first mobile dock with Qi charging.

K32800WW

Product Description

Today's hybrid working environments call for the flexibility to accommodate multiple screens, device chargers, and a variety of peripherals — all without taking up valuable desk space. The Kensington SD1700P USB-C Dual 4K Portable Mobile Dock with Qi Charging answers your need for productivity, space-saving convenience, and universal compatibility with virtually any USB-C device. This compact, feature-rich, portable dock eliminates the need for extra cables, chargers, and adapters, thanks to a single port that allows integrated wireless Qi charging, dual 4K monitors, 100W pass-through power, additional USB connections, and a dedicated Ethernet port. It's everything you need to work seamlessly from anywhere.

Features

- Best For: Hybrid workers who require Qi charging, additional ports for accessories, and support for up to two 4K monitors
- Connection Technology: USB-C
- Power Delivery: Up to 100W power pass-through
