Technical Data

KKM-PTT

Communication system to wear under respiratory mask or protective clothing

- KKM-PTT is a throat microphone with earphone and a large send button
- connection either to analogue or digital radio sets
- light and comfortable design
- robust PTT-8 button made of impact-resistant plastic is easy to operate
- 180° turnable cloth clip

Technical data

Microphone
Pattern: electret
Directional: n.n
Impedance: 2000 Ohm
Sensivity: -41 dB V / Pa, 1 kHz
Frequency range: 400 Hz – 4 kHz

Speaker
Impedance: 320 Ohm at 1 mW / 1 kHz
Sound pressure level: max. 98 dB
Frequency range: 300 Hz – 8 kHz
Pattern: dynamic
Additional Data

Temperature range: -20°C to +70°C
Weight: 160 g
Send button
Housing: impact resistant plastic housing, black, with cloth clip
Protection class: IP54 - Protection class: DIN EN 61058-1 VDE 0630 Part 1, EN 60529:1991 DIN VDE 0470-1:1992-11
Life cycle: min. 1.500.000 cycles

We reserve the right to changes, due to technical progress.
