

## Articulating Wall Arm For 22" to 40" LCD Flat Panel Screens

### NEW!

It's easy to get the best viewing options by pulling out the screen from the wall, positioning it in almost any direction, even turning it around corners and then smoothly returning it to the wall when finished. Effortlessly adjust the tilt with just a touch and level the screen at any time, even after installation. With integrated cable management, cords and cables are never in the way - even when extending and retracting the screen.

# Articulating Wall Arm

## For 22" to 40" LCD Flat Panel Screens
