Product Description

When you need a flexible and reliable connection between your host device and Kensington USB-C docking station, this 1-meter cable is the solution. Designed for desktop environments where your dock and laptop are not in close proximity. The cable is capable of carrying 4K video, data and up to 60 watts of charging for host devices that support USB-C Power Delivery (PD).

(Not all USB-C devices are configured the same, so it's important to understand your host device's USB-C capabilities to ensure this cable will meet your expectations when plugged into a Kensington USB-C docking station.)

Features

- 1-meter (3.1 feet) cable that can carry 4K video, data and up to 60W of charging to host devices that support Power Delivery (PD)
- Ideal for connecting a USB-C host device to a Kensington USB-C Docking Station
- Host device must support DisplayPort Alt Mode over USB-C for video output to an external monitor
- Compatible only with USB-C host devices running Windows 7+, macOS 10.10+, or Chrome OS 44+

Specifications

- **Connection technology** USB-C
- **Lock Type** Single Keyed
- **PDP Request Quote** Yes
