

Logitech Mobi Fold, Ultra-Portable Travel Mouse - Graphite

Meet Mobi Fold, the ultra-portable mouse that lets you get more done on the go. The slim, compact design unfolds to fit naturally in your hand, and the Adaptive Touch Scroll allows for line by line and hyperfast navigation. Plus, the multi- OS, multi- device compatibility makes Mobi Fold the essential for on- the- go productivity.

FEATURES

- Ultra- portable mouse: Small, foldable, and ultra- thin, this lightweight mouse is ideal for on- the- go use; slips into your pocket or bag; unfold to power on, fold to power off
- Comfortable compact mouse: 22% less muscle strain compared to using a laptop's trackpad (1)
- Multi- Device and OS: Connect with Bluetooth on Windows, macOS, Chrome OS, Android, iPadOS; Swift Pair and Fast Pair certified; hop across 3 devices with Easy- Switch; works with Logi Bolt, sold separately
- Precise tracking and scrolling: 4K DPI tracking and Adaptive Touch Scrolling offers line- by- line accuracy and hyperfast navigation

(1) Logitech ErgoLab 2025 study with 30 persons proved a forearm muscle strain reduction by 22% compared to integrated trackpads.

(2) Battery life may vary based on user and computing conditions.

(3) Requires Logi Options+ App, available for Windows and macOS at app.logi.com

(4) Excludes plastic in printed wiring assembly, cable, receiver, and packaging.

(5) Tested to 50,000 folds/unfolds under controlled conditions until wear or functional issues appeared. Based on an average use of 8 folds/unfolds per day.

(6) Compatible with smartphones that support Bluetooth mouse navigation, including Android.
