

SD4760P USB-C® Triple Display Docking Station - 100W PD - HDMI - Windows/macOS/Chrome

Unlock your productivity with triple displays.

K33622NA

Product Description

Many IT professionals face the challenge of managing different docks for various laptops, missing the benefits of a unified solution that can support multiple external monitors. The SD4760P USB-C® Triple Display Docking Station addresses these issues by supporting Thunderbolt™ 5, Thunderbolt™ 4, USB4®, USB-C® laptops, and MacBook M1/M2/M3/M4 laptops, enabling up to three external monitors while delivering 100W Power Delivery and universal compatibility across Windows, Chrome, and macOS operating systems. This powerful dock empowers users to enhance their workflows and streamline IT management with one versatile device.

Features

- Up to three external displays for MacBook M1, M2, M3, and M4 models, and USB-C® laptops using DisplayLink®.
- Thunderbolt™ 5, Thunderbolt™ 4, USB4®, and USB-C® laptops running Windows 10 or above, macOS 11 or above, Chrome OS 114 or above.
- Up to 100W laptop charging, while also providing power to connected accessories through the dock.
- 11-in-1 design allows users to work more efficiently.
- Zero-Footprint Mounting option supports a tidier workspace and security cable lock slots offer device protection.
- Free DockWorks™ software (Windows only) ensures the best connection, performance, and security from your dock.
- 3-year limited warranty.
- Delivered in Forest Stewardship Council (FSC®) certified packaging.
