HP 2133 Mini-Note PC

Small but mighty

Ideal for instructional use or general purpose business applications, the HP 2133 Mini-Note PC might be small in size (2.8 lb / 1.27 kg and only 1.05 in/33 mm thin) but it's big on usability, durability, and sleekness. Packed with an impressive combination of features, the HP Compaq 2133 offers you a full-function PC with the utmost mobility.

Productive here, there and everywhere

The HP 2133 comes equipped with the productivity tools you need to conduct business efficiently on the go: 8.9-inch diagonal, scratch-resistant, WXGA display; 92% full-size, user-friendly QWERTY keyboard; ExpressCard/54 slot, integrated Secure Digital Reader, touchpad with scroll zone.

Cut the cords and stay connected

With wireless technologies such as integrated Wi-Fi Certified WLAN ¹ and optional Bluetooth®, it is easier to access the Internet as well as communicate via email, IM, chat, and blogging—at school, at home or on the road at your favorite hotspots as well as use optional Bluetooth devices such as printers, mice and headsets. By using the Internet, e-mail, instant messaging and VoIP ¹, it makes researching, communicating, collaborating, and searching more convenient and enjoyable.

HP Professional Innovations help you focus on your business

Built to last. The simple, refined design and all-aluminum case make it sleek and sturdy yet super lightweight. Reliable features such as HP DuraKeys, magnesium alloy support structure, and HP 3D DriveGuard help give you a reliable and durable mini-note PC that can go the distance. Built to simplify. Experience video, still-image capture, web conferencing, or video-enhanced instant messaging with no additional hardware to buy or carry. Integrated VGA webcam enables both video and still-image capture so you can add photos and video clips to presentations, documents and e-mail.

Built to protect. Optional security solutions are available to help defend your data and your notebook.
