

Monitor Arm Packages

NEW
Packages

Ease-of-Use

- Ideal for computerized health records and clinical documentation in the patient room.
- Designed to provide effortless use through a fluid range of motion that supports patient interaction at the bedside.
- Independent vertical keyboard adjustment allows variable relationship space between hand position and monitor.

Innovative Design

- Fully configurable with articulating and optional fixed arm components permit you to specify the monitor arm solution that best meets your unique requirements.
- Lightweight aluminum with hardened finish stands up to the rigors of your healthcare environment and maintains its attractive appearance over time.
- Concealed cable management eliminates unnecessary visual clutter and streamlines motion.

Optimal Value & Reliability,

- Trim-line profile can be under 8" when stored for care settings that demand compact and functional hardware mounting.
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment, 180° range of lateral motion, and monitor or keyboard tray tilt in 90° positive or 20° negative direction.

General Specifications

Monitor mount standards:	VESA 75MM, 100MM
Keyboard pivot range:	180°
Monitor rotation range:	180°
