

ZEN X-Fi3

Simply the Best Wireless Audio On-the-go

Creative's all new ZEN X-Fi3 delivers the best wireless audio on-the-go through X-Fi audio restoration for music files, lossless music file support, and Bluetooth wireless connectivity -- all at an incredibly affordable price point. Also features a Video-out connector.

- **X-Fi:** Restores lost details back to your digital music
- **Lossless Music:** Supports FLAC Format files
- **apt-X:** Delivers superior wireless audio quality
- **Bluetooth:** Connects wireless Headphones + Speakers
- **microSD:** Supports up to 32GB of music
- **FM Radio:** Supports up to 32 Preset Stations
- **Touch Buttons:** Enables easy navigation in style
- **Video-out:** Connects to a TV for big screen viewing

ZEN X-Fi3 comes with a 2" Touchscreen, wireless music streaming, expandable microSD card slot, FM & Voice Recorder and capable of delivering the same audio/video formats as it's predecessor.

	Feature	Benefit
1	Unbeatable X-Fi Performance	X-Fi technology intelligently restores lost detail and enhances your digital content to amazing clarity. It also intelligently moves a conventional left/right earphone stereo source away from your ears, virtually expanding it for an audio experience with a breathtakingly realistic depth of field.
2	Wide Audio Format Support that Includes Lossless Audio	Supports FLAC files and non-protected AAC (.M4A) from iTunes Plus [®] besides MP3, WMA (DRM9), Audible Format 4 and Audible AAX.
3	apt-X Codec for Superior Wireless Transmission	The built-in apt-X codec supports superior wireless Bluetooth transmission (that's as good as a wired connection) when ZEN X-Fi3 is used with Bluetooth Headphones and Speakers with apt-X codec support.
4	Bluetooth[®] Wireless Technology	Works with all compatible stereo <i>Bluetooth</i> speakers and headphones such as the ZiiSound D5 and Creative WP-300. Enjoy wireless music when you connect via Bluetooth to Creative's PURE wireless headphones or speakers.
5	Expandable Memory	Expand the onboard memory of ZEN X-Fi3 by simply inserting a microSD card to enjoy additional content.
6	FM Radio	Supports up to 32 Preset Stations.
7	Touch Buttons	Enables easy navigation in style with easily accessible control surfaces designed to be used with one hand.
8	Video-out to a TV	Enjoy movies or share images with your family and friends on a large screen, when you connect ZEN X-Fi3 to a TV (A/V cable available separately).

Technical Specifications

- **Capacity¹:** 8GB, 16GB
- **Memory Expansion slot:** microSD/microSDHC support (up to 32GB)
- **Device Class:** Mass Storage Class (Removable Drive)
- **Display:** 2" TFT with 262K colors
