Verbatim Wired Keyboards are your key to productivity! Enjoy constant and reliable connectivity to your computers through the direct USB connection, and full functionality so you won't be slowed down.

Hot keys on the keyboard provide instant access to media controls, putting your music at your fingertips. LED status indicators for CAPS Lock, Scroll Lock and Num Lock let you quickly and easily see your keyboard's status. And with universal compatibility, these keyboards can go with you anywhere.

Our keyboard and mice combos include a wired mouse for the ultimate in convenience. This mouse features 1000 DPI, for higher precision and accuracy while clicking, and an ambidextrous design, ideal for both right and left hand users.
