

## Slim N17 Serialized Combination Laptop Lock for Wedge-Shaped Slots 25-Pack

Keyless Security for Laptop and Tablets for Wedge-Shaped Lock Slots

K68010WW

### Product Description

The improved Slim N17 Serialized Combination Laptop Lock for Wedge-Shaped Slots 25-Pack delivers increased strength in a smaller size. It's the strongest keyless locking solution for laptops and tablets with a wedge-shaped lock slot, independently verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion, and other environmental conditions. The Slim N17 Serialized Combination Laptop Lock for Wedge-Shaped Slots 25-Pack features a stronger cable with greater pull strength, an updated slider for easy one-handed engagement of the lock, and a pre-programmed 4-number code so you can immediately put it to work without having to set the combination yourself. A serial number is etched onto the lock, making it easy to verify and retrieve a lost or forgotten combination.

### Features

- Serialized preset combination means the lock comes pre-programmed with a 4-number code so you can immediately put it to work without having to set the combination yourself.
- Tough lock head is internally verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion, and other environmental conditions.
- Unique lock engagement featuring expanding side "hooks" that grab the internal sides of the wedge-shaped lock slot, creating a strong connection between the device frame and the lock to resist and deter theft.
- Carbon steel cable is cut-resistant. Plastic sheathing protects desks, tables, and other fixed-structure attachment points.
- Enables one-handed attachment via a re-engineered slider that allows for quick and easy engagement into the device.
- Register & Retrieve™ allows for quick, easy, and secure lookup if the combination is ever lost or forgotten.
