CONTENTS

- VisionTek VTWC30 Webcam
- Quick Start Guide

APPLICATIONS

Standardize video across enterprise fleets, remote professionals, and virtual classrooms. The VTWC30 streams 1080p video natively into Zoom, Microsoft Teams, Google Meet, and Cisco Webex. Integrated audio, a privacy cover, and plug and play design ensure every remote user is instantly meeting ready.

THE VISIONTEK DIFFERENCE

As a privately owned Midwestern company, VisionTek believes performance, reliability, and real support still matter. From IT and government agencies to healthcare, education, and distributed workforces, customers rely on us to reduce downtime and keep operations running smoothly.

Every product is backed by dedicated U.S. based technical support. We build technology that works so you can focus on getting your work done.

Smart Tek. Real Support.

Enhance your professional communications with the VisionTek VTWC30 Webcam. Delivering crisp 1080p video and clear audio via a built-in omnidirectional microphone, this USB-A plug and play camera requires no software installation. Complete with an 83-degree field of view and an attached privacy shutter, it provides essential functionality for any workspace.

Professional 1080p Video

Upgrade your remote workspace with clear, high-definition 1080p/30fps resolution video. Built-in auto exposure, auto white balance, and anti-flicker adjustments ensure a consistent image in changing room lighting.

Optimized Framing & Positioning

An 83-degree diagonal field of view perfectly frames your head and shoulders without exposing your background. Position your view easily using 360-degree horizontal rotation, a 30-degree vertical pivot, and a tripod-ready clip that mounts securely to laptops and monitors.

Integrated Microphone

Onboard omnidirectional microphone captures clear 2-channel audio up to 3 feet away, providing reliable voice pickup for daily meetings and virtual classes without requiring a headset.

Hardware Privacy Cover

Includes an attached privacy cover that manually blocks the camera lens, giving you absolute physical security when the webcam is not active.

Plug and Play Deployment

Connect directly to your system via the 1.7m (5.6ft) USB-A cable. Requires no additional drivers or software for immediate use across standard video platforms.
