SureColor SC-F9400H

DATASHEET / BROCHURE

Epson offers its first genuine fluorescent ink, dye sublimation, textile printing solution.

The SC-F9400H offers businesses the option of printing with two genuine fluorescent ink solutions (yellow and pink) which can be used to create a wide range of bright, vivid colours for the production of sportswear, workwear and fashion items. The SC-F9400 series is an evolution of trusted Epson print technology and provides enhanced quality while sustaining productivity and reliability.

The total end-to-end Epson solution
When you buy the SC-F9400H it's reassuring to know that we provide you with expertise from start to high-quality finish: printer, inks, media, software and support… all working in harmony.

Fluorescent inks for vivid imaginations
For ambitious businesses that are looking to expand their current offering, genuine fluorescent yellow and pink inks have been added alongside the CMYK range, to help you stand out from the crowd.

Enhanced productivity
Maintaining a high output, even when printing intense colours, the SC-F9400H has been built with your efficiency in mind. And with higher capacity ink pouches, the SC-F9400H will keep you running for longer.

Impressive print speeds and accuracy
The SC-F9400H has a maximum print speed of 108.6m^2/h for fast turnarounds. The updated settings deliver a lower tension and accurate registration, which improves take-up and reduces the total cost of ownership (TCO) by using lower-weight sublimation papers.

Myriad colours
The expanded library of colours offers great creative possibilities. Epson Edge Print software includes a Colour Library Printing function that can be easily installed into Adobe's Creative Suite applications, so you can push your creativity to the limit using the wide colour gamut.

Scan and learn
It's never been simpler to carry out maintenance correctly. You can watch the printer's instructional video by scanning the QR code label, which is attached to the machine.

KEY FEATURES

- **Genuine fluorescent ink solution**
  Yellow and pink fluorescent inks
- **UltraChrome DS inks**
  For bright, colourful, durable and accurate prints
- **Faster printing**
  Print speeds of up to 108.6m²/h
- **The complete solution**
  Epson printer, inks, paper and software designed to work in harmony
- **Improved reliability**
  Minimise head strike and cockling to maximise uptime

EPSON®

PRODUCT SPECIFICATIONS

TECHNOLOGY	
Printing Method	PrecisionCore™ TFP print head
Ink Technology	Ultrachrome® DS
PRINT	
Colours	Cyan, Yellow, Magenta, High Density Black, Fluorescent Pink, Fluorescent Yellow
Minimum Droplet Size	4 pl, With Variable-Sized Droplet Technology
Ink tank capacity	1.500 ml
Nozzle Configuration	720 Nozzles Black, 720 Nozzles per Color
Printing Resolution	720 x 1.440 DPI
PAPER / MEDIA HANDLING	
Paper Formats	A0, A1, A2 (42.0x59.4cm), 64", 44", 36", 24"
Print Margins Roll Media	Mode 1: 5 mm (right), 5 mm (left)
Compatible Paper Thickness	0,4 mm - 1 mm
GENERAL	
Power consumption	570 Watt, 1 Watt (Power off)
Supply Voltage	AC 100 V - 220 V
Product dimensions	2.620 x 934 x 1.332 mm (Width x Depth x Height)
Product weight	290 kg
OTHER FEATURES	
Memory	Printer: 512 MB, Network: 128 kB
Maintenance system	Automatic wet fabric wiper system
Compatible Operating Systems	Windows 10, Windows 7, Windows 7 x64
Media Handling	Auto take up reel, Roll Paper
LCD AND MEMORY CARDS	
Panel	Type: Color
OTHER	
Warranty	12 months On-site service Optional warranty extension available
