

# Moverio BT-40

## DATASHEET / BROCHURE

Personal smart glasses that offer a high-resolution, big screen experience that is projected into the wearer's line of sight.

Moverio BT-40 smart glasses create a virtual workstation and are ideal for business users on-the-go. Wearers can display a second screen for privacy, or expand desktops with a virtual second monitor. Connect to compatible<sup>1</sup> smartphones, tablets and computers using USB-C for a widescreen, Full HD 1080p display that's similar to an external monitor or projector, that provides a personal cinematic experience.

### High-quality display

Epson's Si-OLED technology provides excellent colour reproduction and a crisp, bright viewing experience. The Full HD 1080p display further enhances each detail and the large display area is the equivalent of viewing a 120-inch screen from 5 metres away.

### Ergonomic design

Developed to replicate the familiar, comfortable fit of conventional prescription glasses, the Moverio BT-40's ergonomic design, with flexible temples, offers improved comfort for long term usage.

### Simple connectivity

The Moverio BT-40 uses USB Type-C that allows simple connectivity to a wide range of devices like smartphones, tablets and laptops, over a single cable. This easy-to-use plug-and-play solution can also be managed easily with the free Moverio Link app.

### Designed for business use and personal entertainment

The Moverio BT-40 is ideal for business executives adapting to modern working styles; and frequent business travellers who work on trains, planes and in public spaces, where privacy and comfort are important. The see-through, hands-free second display allows users to work comfortably and perform other tasks simultaneously, from a natural viewing position. An immersive experience can be enjoyed while watching movies or streamed entertainment.

## KEY FEATURES

- **Connectivity**  
USB-C for simple connectivity to a wide range of devices
- **Design**  
The Moverio BT-40 even fits over prescription glasses
- **Image quality**  
Si-OLED technology and Full HD 1080p display
- **User privacy**  
View second screen content to keep your confidential materials private
- **Easy to use**  
Plug-and-play with Moverio Link app for settings management.

## PRODUCT SPECIFICATIONS

### TECHNOLOGY

Model Type See-through OTG (Over the Glasses)

### OPTICAL

Display Device Type Si-OLED (Silicon - Organic Light-Emitting Diode)  
Display size 0.45 inch wide panel (16:9)  
Pixel Number 2,073,600 pixels ( 1,920x 1,080) x RGB  
Field of View Approx. 34 °  
Screen Size (Projected Distance) 120 inches at 5 m  
Colour Reproduction 24 bit-colour (16.77 million colors)  
Refresh rate 60 Hz

### SENSORS

Compass Yes, Headset only  
Gyroscope Yes, Headset only  
Accelerometer Yes, Headset only  
Ambient Light Sensor Yes

### CONNECTIVITY

Connector ports 4 pin mini jack (earphones with microphone complying with the CTIA standard) x1, USB Type C

### SUPPORTED FILE FORMATS

3D supports Side By side

### GENERAL

Operating Temperature 5 °C - 35 °C, 20 % - 80 % Humidity  
Dimensions: Headset 164 mm x 194 mm x 41 mm (D x W x H)  
Weight Headset 95 g (without light Shielding / without harness) (without cables)  
Storage Temperature -10 °C- 60 °C / 10 %- 90 % (no condensation)  
Product weight 0.17 kg

### OTHER

Warranty 24 months Carry in
