Features

Flat USB 2.0 Cable Charges and Syncs Your Phone or Other USB-C Mobile Device
This USB sync/charge cable (M/M) connects your smartphone, tablet, MacBook Pro, Windows laptop or other USB-C device to the USB-C port on a computer, docking station or wall charger. It supports power output up to 3 amps (60 watts), which is sufficient for fast charging and powering most mobile devices. It also simultaneously synchronizes and transfers data at USB 2.0 speeds up to 480 Mbps.

Innovative Flat Cable Prevents Tangles, Allows Flexible Bends
Very flexible for convenient on-the-go connections, this flat cable avoids nasty tangles in your backpack or laptop bag. Its advanced flat design allows easy rolling for tangle-free storage. Plus, it bends easily for connecting to devices in tight spaces or around obstacles.
