

High Strength IT Cabinet, Shock Packaging, and Reusable Ramp System

NetShelter SX3K

The NetShelter SX3K is designed to handle the heaviest of IT loads – converged, hyperconverged, hyperscale, and data storage!

A cabinet and shipping solution that allows complete integration and shipping of costly IT systems to your site or a colocation site for immediate plug-and-play- no added installation, setup, or downtime.

Industry leading dynamic shipping rating!

Load, transport, unload, and deploy a cabinet with up to 3500lb of IT equipment installed!

The cabinet is rated to 3500lb dynamic (rolling) and shipping and 4250lb static (levelling) feet.

The solution has been tested to industry standard ISTA 3E transportation and shipping testing.

Strengthening the base building block of InfraStruxure !

The NetShelter SX3K has been designed to seamlessly integrate into Schneider Electric's InfraStruxure modular, scalable, data center infrastructure.

Available in 42U and 48U heights and compatible with hundreds of APC accessories.

Rack & Stack made easy for equipment integrators

Secure shipping, fast deployment and enhanced integrated solutions with APC by Schneider Electric high strength IT cabinet. This solution offers:

- Lower physical layer engineering and production costs
- Faster integration time of overall IT solution
- Reduction in physical layer floor space requirements during rack & stack
- Reduction in packaging and recycling of physical layer materials

How does it work?

NetShelter SX3K added features:

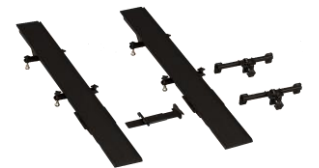

- Easy installation, integration, configuration – Easy-to-remove/reassemble shock packaging
- Added load support – Robust equipment fastening system, vertical / horizontal stiffeners, & heavy duty EIA equipment mounting rails
- Smooth maneuverability – Durable, heavy-duty casters
- Complete rack stability – cabinet elevation/pallet brackets
- Simplified cabinet removal – Metal reusable ramp (sold separately), built in rails, and fixed rear casters
- Outer protection – Complete outer wrap & protective inserts
- Shock pallet – impact- & vibration-resistance during integration/transport

Simple, Fast Configuration with Local Edge Configurator

Configure the NetShelter SX3K or other racks along with accessories in our Schneider Electric Design Portal product configurator. Search from a refreshed 3rd party catalog and drag and drop items into the rack. Available to partners and

Description	Part #
NetShelter SX3K 42U x 600mm W x 1200mm D with sides/doors & packaging	AR9300SP
