

MagPro™ Elite Magnetic Privacy Screen for MacBook Pro 16" (2021)

Privacy begins on screen.

K58371WW

Product Description

The move toward hybrid working means that the modern workplace is no longer a single, easy-to-secure location. Users can be working anywhere, with an increased chance of visual hacking. Owners of the MacBook Pro 16" require a privacy screen that can be quickly attached and detached, allowing the laptop to close completely to enter sleep mode. The MagPro™ Elite Magnetic Privacy Screen attaches seamlessly to the MacBook Pro's magnetic frame, requiring no inconvenient adhesives. Allowing the device to close completely, the screen narrows the viewing angle to +/- 30°, limiting the chance of unauthorized viewing and reducing harmful blue light and glare.

Features

- Privacy screen seamlessly, conveniently, and easily attaches to — and detaches from — the MacBook Pro frame with magnets. No inconvenient and potentially damaging adhesives required.
- Even with the privacy screen attached, the MacBook Pro can close completely to enter sleep mode.
- Limited viewing angle narrows the field of vision to +/- 30 degrees, helping keep the information on your screen private and reducing the chances of a visual data breach in the office or in public.
- Blue light reduction filters out harmful rays by up to 30%, easing eye strain and reducing the chances of blue light interrupting natural sleep patterns.
- Low reflective coating reduces glare from outside light sources for improved viewing clarity.
- With reversible viewing options, one side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the monitor. Magnets make it easy to detach and reattach.
