## Footnotes

### Messaging Footnotes

- <sup>1</sup> From 1 AA battery. Battery life is an estimate and varies depending on many factors, including number of active, idle and asleep hours of use, number of applications running, environmental conditions and features used; actual battery life will vary with usage and environmental condition. The maximum capacity of battery will naturally decrease with time and usage.
- <sup>2</sup> Requires Windows 10 or higher.
- <sup>3</sup> Recycled material is express as a percentage of the weight of total recycled materials over the total product weight. The final percentage of recycled material is base on the definition of set by SCS Global service- SCS-103 Annex A Certification.
- <sup>4</sup> Forest Stewardship Council® (FSC) Certified, meaning all components of our packaging come from responsibly managed forests to provide environmental benefits.
- <sup>5</sup> Glass surface may affect functionality.

### Technical Specifications Footnotes

- <sup>1</sup> Recycled material is express as a percentage of the weight of total recycled materials over the total product weight. The final percentage of recycled material is base on the definition of set by SCS Global service- SCS-103 Annex A Certification.
- <sup>2</sup> Glass surface may affect functionality.
- <sup>3</sup> The SCS Certification Standard for Recycled Content Annex A is for brands that want a product-level claim to demonstrate the total percentage of recycled content used in electrical and electronic equipment products. Recycled content is the proportion, by mass, of recycled material in a product. [ISO 14021]
