

# 1

☀ Plug in the two-piece power cable and you're ready to start.

# 2

Pull tabs on the back of the keyboard and mouse to activate pre-installed batteries. Ensure the mouse power switch is in the "On" position. The keyboard and mouse are pre-synchronized for your convenience.

If the keyboard or mouse do not respond, refer to the information on synchronizing the wireless keyboard and mouse in the *Getting Started* guide.

**NOTE:** Configurations vary by model.

# 3

Press Power button.

**Do not turn off the computer during this process.**

Startup may take up to **20 MINUTES**
