

Dual IEC Power Cable (NEMA 5-15P to 2x IEC-320-C13), 18 in.

MODEL NUMBER: P006-18N-2

Features

Connects 2 Devices with C14 Inlets to One AC Outlet

This 125V IEC splitter cable allows two devices with C14 power inlets to share one AC input cord and one NEMA 5-15R outlet. This 18-inch cord features a NEMA 5-15P plug on one end and two C13 connectors on the other. By connecting two devices to one outlet, the cord frees up space in a PDU or surge protector and helps reduce cable clutter.

Powers a Wide Variety of Essential Electronics

With this extension cord Y splitter cable, a single NEMA 5-15R outlet can power two devices, such as computers, monitors, printers, instrument amplifiers and other equipment compatible with a C13 connector. Ideal for areas where AC outlets are limited, such as rack cabinets, the P006-18N-2 is compatible with Tripp Lite power and extension cords.

Meets Critical Safety Standards

Recommended for education, commercial, OEM and some health care applications, among others, the P006-18N-2 is certified to UL, cUL and CSA standards. The main trunk cable measures six inches from the NEMA plug to the splitter housing with each C13 leg measuring 12 inches in length.

Superior Quality and Performance

The P006-18N-2 is manufactured using superior materials for reliable performance. The high-quality connectors are molded for durability and feature integral strain relief that gives the cord extra flexibility, reduces stress, and helps the cord and connectors move freely without cracking. This SJT power cord has three 18 AWG conductors and a 10A rating.

Lifetime Warranty and Environmentally Responsible Design

The P006-18N-2 comes with a lifetime warranty. It's manufactured in compliance with strict RoHS specifications, reflecting Tripp Lite's commitment to environmental responsibility.

Specifications

INPUT

Highlights

- Connects 2 devices to one AC outlet to save space and reduce cable clutter
- Ideal for education, commercial, OEM and health care applications
- UL-, cUL- and CSA-certified to meet critical safety standards
- Designed for connecting equipment in areas where AC outlets are scarce
- Excellent replacement for old or lost C13 power cords

Applications

- Power your desktop computer and another device from the same AC outlet
- Replace old or missing power cords

System Requirements

- Computer or other devices with C14 power connectors

Package Includes

- P006-18N-2 Dual IEC Power Cable (NEMA 5-15P to 2x IEC-320-C13), 18 in.
