Neomounts MOVE Lift X WL55-885BL1 Floor-to-wall mount - 65-105" - max 120 kg - motorised height adjustment 112-212 cm - 50mm/sec - VESA 200x200-1000x600 - lockable - black

The Neomounts WL55-885BL1 MOVE Lift X is a Floor-to-wall mount for displays from 65" up to 105" with a maximum weight capacity of 120 kg. The mount has 100 cm motorised height adjustment (50 mm/second), operated with a digital control panel featuring three memory settings and height limitation settings, and features an anti-collision system for extra safety. A lockable hardware compartment is integrated into the mount.

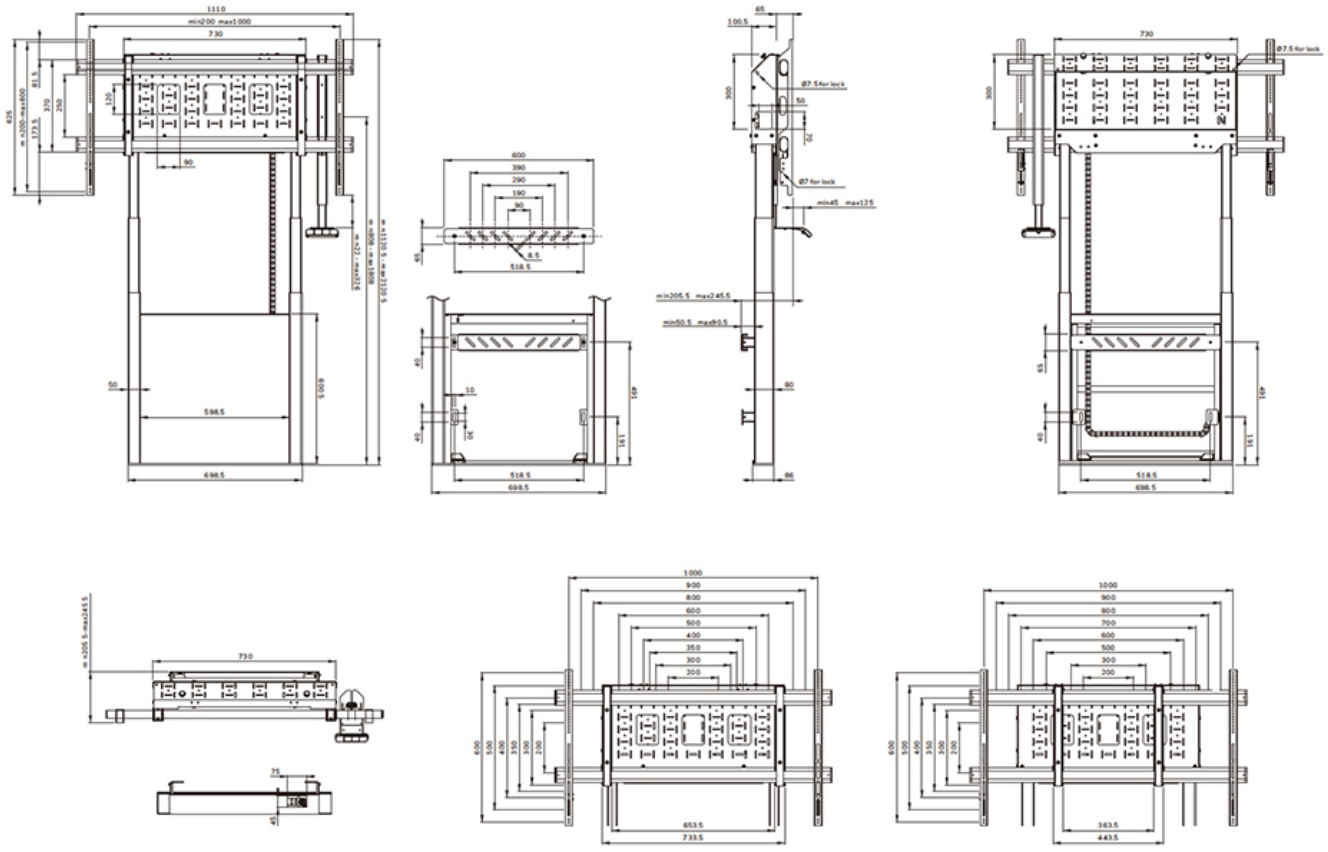

The MOVE Lift X Floor-to-wall mount is designed for a secure and professional installation, equipped with adjustable wall brackets at the rear that allow for installation at a precise distance from the wall, easily accommodating skirting boards. This ensures solid and secure installation. Tightly integrated cable management conceals and routes cables from wall mount to screen, while a stylish felt cover at the front neatly conceals the lower base for a clean and professional look. The floor-to-wall mount is ideal for meeting rooms, classrooms, presentation areas and other professional environments where a secure screen installation with flexible height adjustment is required.

The MOVE Lift X Floor-to-wall mount is packed partially pre-assembled, to ensure fast and easy installation. The display can be secured by locking the brackets using a padlock (not included). The WL55-885BL1 has a distance to the wall of 37.5 cm and is suitable for screens that meet VESA hole patterns from 200x200 to 1000x600 mm.

The universal AV30-500BL videobar & multimedia kit is optionally available and enables the installation of a separate cam shelf and multimedia device shelf to the mount.
