

ThinkCentre neo Ultra Gen 2

Power beyond limits with cutting-edge ThinkCentre, designed for modern business professionals. Built on the robust Intel vPro® platform and powered by Intel® Core™ Ultra 5 / 7 / 9 Processors with integrated NPU, this system delivers enterprise-grade security and lightning-fast responsiveness that keeps pace with your most critical business operations. The dedicated NPU accelerates AI workloads, enabling intelligent automation and enhanced decision-making capabilities. Experience visual excellence with NVIDIA® GeForce RTX™ 5060 graphics, engineered to handle complex presentations, detailed financial modeling, and professional video conferencing with crystal-clear clarity.

Empowering the modern workforce with a streamlined desktop experience

ThinkCentre Neo series offers enhanced manageability and security features, along with additional configuration and expansion options.

The ThinkCentre combines smart functionality with a compact 3.6L form factor, making it ideal for tight spaces. Its built-in power supply unit (PSU) eliminates the need for an external power brick, reducing cable clutter. Additionally, Smart Connect simplifies cross-device sharing, making content accessible across your PC, phone, and tablet.

The support for up to seven displays via onboard ports – including DisplayPort™ 1.4, HDMI®, and Thunderbolt™ 4 empowers professionals to multitask with ease, enhancing productivity across complex projects and multitiered applications.

Combining style with sustainability, the desktop offers a smarter, eco-friendly workspace. Its sleek Luna Grey aluminum chassis, crafted from recycled materials and waterborne paint, ensures durability and reduces waste. Optional ENERGY STAR® 9.0, optional EPEAT™ Gold, and TCO 10.0 certifications highlight its low energy use and reduced carbon footprint.
