All-in-one device
The Poly Studio P15 personal video bar gives you what you need to look and sound your best on video calls in one sleek device. Quality optics, integrated speakers, mic and a high-performance 4K image sensor keep the conversation flowing.

Simple setup
Get your focus and personal spaces set up in a snap. With USB plug and play connectivity, the Poly Studio P15 personal video bar is an easy choice for shared focus rooms or other personal spaces.

Distraction-free audio
Wherever you work you're surrounded by noise – chatting coworkers, barking dogs, your toddler's emergency. Prevent distracting noises and side conversations from interrupting your meetings with NoiseBlockAI and Acoustic Fence technology.

Look amazing, be amazing
Stay centered on camera without being glued to your chair with automatic camera framing. When you're able to move, your energy stays up and your audience is engaged. And you can go where the moment takes you but still stay in the spotlight.

Low-light compensation
Don't let imperfect lighting deteriorate your image during a call. Automatic low-light compensation lets you look your best even in dim environments.

Exceptional camera optics
Put your best foot forward on every call with optics specially designed for video conferencing. Gain confidence that you are clearly seen with brilliant colors designed to show you at your best.

Integrated speaker
Ditch fuzzy-sounding audio. The integrated speaker features acoustic suspension with a passive radiator for rich sound, while the advanced multi-microphone array follows your motion to keep your voice coming through clearly.

Datasheet

Poly Studio P15 Personal Video Bar

Specifications

Compatible with

Compatible operating systems: Windows 10; macOS 10.10 or later; Windows 8.1
