

HP Workforce Experience Platform

Maximize Employee Productivity, Minimize IT Costs

Overview

HP Workforce Experience Platform (WXP) provides IT visibility and control over your digital ecosystem. Its AI-powered predictive analytics and actionable insights¹ drive down costs, strengthen security, and improve efficiency, so your employees can thrive.

Software Benefits

- **Stay one step ahead with proactive management across your devices:** WXP enables you to anticipate emerging issues across PCs, Macs, collaboration tools, digital workspaces, and applications. Leverage comprehensive insights to address problems in your IT environment before they have an impact.
- **Reduce IT service costs with streamlined operations:** AI-powered automation helps streamline operations, resolve challenging IT issues, improve efficiency, and lower IT service costs. Free your IT teams from endless help desk tickets and instantly boost their productivity.
- **Act on insights to boost workforce performance:** Provide IT with alerts and remediation tools to proactively anticipate and resolve issues, unlocking time for higher-impact work. Reducing tech-related frustrations for employees enhances workforce productivity and engagement, helping drive business growth.
- **Assess change and measure impact:** Monitor and manage the health of your digital ecosystem from a single modern interface. Customize your analytics, reporting, and surveys, creating a continuous feedback loop to optimize every aspect of your workforce experience.

Software Highlights

- Proactively solve IT issues with advanced endpoint management and insights.
- Enhance employee satisfaction with actionable pulse survey feedback.
- Cut IT support hours and costs using AI-powered automation.
- Optimize expenses with data-driven hardware refreshes.
- Strengthen endpoint security with proactive remediation.
- Maximize IT efficiency with third-party integrations.

Delivery Specifications

HP Workforce Experience Platform is a customer self-managed or partner-managed software solution. Platform access is granted after purchasing a plan and HP completing the license entitlement.

Device enrollment can be done by customers with HP-provided self-deployment instructions or by submitting a support request to HP Support through the platform.

Plan Summaries*

Standard	Pro	Elite
<p>Get essential tools and support for PC fleet visibility and control.</p> <ul style="list-style-type: none"> ▪ Fleet health analytics and insights ▪ BIOS policy deployment ▪ Windows 11 readiness ▪ Employee surveys ▪ Essential third-party integrations 	<p>Enhance your digital experience strategy and resolve issues quickly with advanced remediations and employee engagement tools.</p> <ul style="list-style-type: none"> ▪ Advanced monitoring, alerting and remediation ▪ AI-driven anomaly detection ▪ Employee sentiment and engagement ▪ AI-powered natural language search (limited queries) ▪ Additional integrations 	<p>Overcome your most complex IT challenges and streamline operations with cutting-edge AI capabilities.</p> <p>All that's in Pro, plus:</p> <ul style="list-style-type: none"> ▪ AI-powered natural language search (unlimited queries) ▪ AI-driven sentiment analysis

The Starter plan includes basic telemetry for PCs and is included with purchase of select HP solutions.²

Systems Requirements

PC Operating Systems

Desktops or notebooks from any major vendor* running the following operating systems:

- Windows
 - Windows 10 (Version 20H2 or higher)
 - Windows 11
- MacOS
 - MacOS Catalina (Version 10.15) or higher
- Chrome OS
 - HP Chromebooks running Chrome OS (Version 76 or higher with Chrome Enterprise or Education Upgrade)

Support Restrictions

* Your PC does not need to be manufactured by HP, with exception of Chromebooks, where only specific HP models are supported.

- Windows Servers are not supported
- Analytics is not supported in a virtual machine

Mobile Operating Systems

Smartphones and tablets from any major vendor* running the following operating systems:

- Android 9.0 or higher
- iOS 13.7 or higher**

* Your mobile device does not need to be manufactured by HP.

** iOS support requires an integration with Microsoft Intune.

HP Insights Agent

The service requires that the HP Insights Agent is installed on PCs for collecting device telemetry. HP Insights Agent is available for Windows, MacOS and Android. The agents can be accessed at

<https://workforceexperience.hp.com/software>

For instructions on bulk-agent deployment please contact HP Support.

Web Browsers

PC

- Google Chrome - latest version
- Microsoft Edge (Chromium-based) - latest version
- Firefox - latest version
- Safari - latest version

Note: HP Insights support for Internet Explorer ended effective December 31, 2020.

Mobile

- Chrome on Android v8.0 or higher - latest version
- Safari on iOS 13.7 or higher - latest version

HP Retail & Industry Point of Sale Solutions (RIS)

Supported RIS Platforms

WXP supports HP Retail & Industry Solutions platforms shipping with one of the following Microsoft Windows operating systems:

- Windows 11 Pro
- Windows 11 Enterprise
- Windows 11 IoT Enterprise
- Windows 10 Pro
- Windows 10 Enterprise
- Windows 10 IoT Enterprise

Supported RIS Peripherals

The following peripherals that meet Unified POS specifications are supported:

- Receipt Printers: HP-branded and Epson-branded sold by HP and third-party models
- Barcode Scanners: HP-branded, Datalogic-branded, and thirdparty models
- Magnetic Stripe Readers (MSR): HP-branded and third-party models
- Additional peripheral types such as 2x20 displays and cash drawers might be supported for limited functionality.

Note: Some features are limited only to peripherals that support the Manageability Stack in Unified POS (UPOS).

Peripheral analytics features require installation of the HP Retail Peripheral Agent, which can be downloaded from the enrolled devices' support pages under the "Support- System Management" section. Consult the knowledge base <https://learn.workforceexperience.hp.com/docs/en/retail-installing-the-rpos-agent-for-retail-peripheral-reporting> for instructions on how to set up and use the Retail Peripheral Agent.

Network Requirements

An Internet connection is required for communications between the managed device and the cloud management service.

View the full list of [Workforce Experience Platform Services System Requirements](#).

Additional HP Solutions

Add-on solutions such as WXP Collaboration, WXP Print Management, HP Anyware, HP Protect and Trace with Wolf Connect, HP PC and Print support services, and more are also available.

Organizations seeking an experienced partner to proactively manage their IT ecosystem can rely on HP's global team of Service Experts. HP Managed Services teams can help monitor and maintain your technology investments and maximize the value of WXP. Please contact your HP representative or Channel Partner.

1. The Workforce Experience Platform (WXP) is available in various tiers and for multiple term license durations, and some features require optional add-on solutions. WXP is for commercial customers and some features and capabilities may require additional purchase of HP services and/or commercial hardware capable of supporting the HP Insights agent for Windows, Mac, & Android. WXP is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security. Activation and restrictions may apply. Select HP solutions require an HP Insights agent for Windows, Mac, & Android, available for download at <https://workforceexperience.hp.com/software>. For full system requirements and services that require the agent, please visit <https://workforceexperience.hp.com/requirements>. The agent collects telemetry and analytics around devices and applications that integrate into the Workforce Experience Platform. Internet access required. WXP Collaboration license required for audio and video collaboration technology monitoring. HP Anyware license or compatible third-party virtual machine license required for virtual machine monitoring. WXP Print Management capabilities are available to select beta customers in the US only. WXP Print Management is planned to be available in a future release in various tiers as an add-on solution in various term licenses.

2. Contact your HP representative or HP partner for HP solutions that include the Starter plan through the order.

This datasheet is governed by the [HP Portfolio Terms](#) for the country of the HP affiliate accepting the order or the terms provided to you by your HP Channel Partner. However, if you have a separately signed agreement with HP, such terms govern except to the extent that HP's Portfolio Terms for the country of delivery reflect local law or business practice. You may have additional statutory rights according to applicable local laws.
