

## Sit-Stand Desk Converter with Monitor Arm - 35" Wide Work Surface - For up to 30" Monitor

Product ID: BNDSTSLGPVT

The sit-stand desk converter with pole-style monitor arm enhances your productivity and comfort. This ergonomic desk solution includes two products: the spacious [sit-stand workstation](#) (ARMSTSLG) and the [single monitor mount](#) (ARMPIVOT), supporting a monitor up to 30". The monitor mount provides extended height adjustment along the pole, and tilts for optimum viewing.

### **Go from sit to stand, with one touch**

With one touch, switch your position from sitting to standing or vice versa, to keep a balanced level of movement throughout the day. The height-adjustable standing desk workstation features a pneumatic spring that makes it easy to raise or lower your work surface up to 15.7" (400 mm), to suit your height requirements (instead of selecting from pre-determined heights). You can also adjust the tension, to make height adjustments even easier.

### **Improve your viewing angle, with easy monitor adjustment**

The included monitor mount features a support post that's 11.89" (302 mm) tall, for a much greater height-adjustment range than a typical monitor stand can provide. Adjust your viewing angle with +90/-15° tilt. The monitor mount also supports landscape-to-portrait display rotation.

### **Easy setup**

Simply place the sit-stand desk converter on your existing desk (minimum 26" depth). Then, attach the monitor mount using the grommet hole and included grommet-mount hardware.

The BNDSTSLGPVT is backed by a StarTech.com 2-year warranty and free lifetime technical support.

### Certifications, Reports and Compatibility

### Applications

- Create a single monitor sit-stand workstation for business, corporate, institutional, or home office use
- Install ergonomic desk solutions while saving cost by utilizing existing desks and work spaces

### Features

- Place the sit-stand workstation on your existing desk to create an ergonomic stand-up desk, with spacious 35" (0.9 m) wide work surface
- Lever-controlled pneumatic spring for easy height adjustment (max height adjustment range: 15.7")
- Single monitor mount supports one monitor up to 30"
- Arm offers wide range of height adjustment along the pole, up to 11.89 in. (302mm)
- Monitor arm provides +90/-15° tilt, and 360° rotation around the support post
- Minimum footprint: 660 mm (26") D x 889 mm (35") W
- Sit-stand workstation features high-quality construction, engineered with steel and MDF wood base, tray and work surface
- Straight up and down movement, provides a stable workstation with no fear of tipping
