

ClickSafe® Combination Laptop Locks - Master Coded- ComboGenie - TAA

K67856WW

Product Description

Eliminate the risk of forgotten or reset combinations while ensuring a higher level of security. The Kensington ClickSafe® Combination ComboGenie employs two-factor authentication to allow administrators with both the ComboGenie and proper administrator's code to discover the combination for all locks within their scope. Using the ComboGenie the administrator can open any of the Kensington ClickSafe® Combination Master Coded Combination Laptop Locks (sold separately) being managed by the administrator. The result is greater security, reliability and reduced downtime from lost or forgotten combinations.

Features

- ComboGenie's two-factor authentication process allows for secure combination recovery by authorized administrators
- Compatible with ClickSafe® master coded combination locks (K64678WW, K64679US, K64680US, K64681US, K68104WW, K68106WW)
- Required administrator code
- TAA Compliant
