

CPBC5200AC USB Battery Pack

Powering your mobile devices anywhere, anytime day and night.

The CyberPower CPBC5200AC USB Battery Pack is a rechargeable, long lasting, lithium-ion battery designed for powering mobile devices including power hungry tablets, smartphones, MP3 players, digital cameras, and other hand held devices while away from other power sources.

Simply plug the charger into a NEMA 5-15R outlet and you're ready to go. It is equipped with two (2) 2.1A USB ports so you can charge your devices anywhere, anytime and enjoy hours of extra runtime.

A One-Year Warranty ensures that this device has passed our highest quality standards in design, assembly, material and workmanship.

Typical Applications
