# EcoStruxure™ IT Data Center Expert 9.0.0

Use this restore ISO to reimage your Data Center Expert appliance.

You can manage software licenses for this version and access the latest software updates in
[mySchneider Software Management](#).

## IMPORTANT

- The 9.0.0 Restore ISO is only supported on Schneider Electric Data Center Expert hardware.
  Please [contact sales](#) for purchasing options.
- If you do not have a 9.0.0 backup and are restoring a DCE server that was on 8.3.0 or below, [contact customer support](#) to assist you with migrating your license keys.
- DCE 9.0.0 will operate in trial mode for 90 days. During this time, some features will be temporarily restricted, such as server upgrades, device firmware updates, and video surveillance clip retrieval. Video clips will continue to be recorded.

| Description | File | SHA256 Checksum | Instructions |
|---|---|---|---|
| New install or restore to default | [9.0.0 Restore ISO](#) | d291c453f5067840cb43c8b61334f681842b53a31b4a221a987d829712f24e27 | [Initial Setup Instructions](#) |

## USB Key generators

### Windows

1. After downloading the restore ISO file above, insert a 2GB (or larger) USB key into your system.
2. Extract [Windows USB key Generator](#) to a temporary directory.
3. Open a command prompt to the temporary directory and run
   `mkDCExpertRestoreUsbKey.bat <iso image filename>`.
   Example:
   `mkDCExpertRestoreUsbKey.bat c: mp\.iso`
4. Answer the prompts as appropriate.

### Linux

1. After downloading the restore iso file above, insert a 2GB (or larger) USB key into your system.
2. Extract [Linux USB key Generator](#) to a temporary directory.
3. Open a command prompt to the temporary directory and run
   `mkDCExpertRestoreUsbKey.sh <iso image filename>`.
   Example:
   `mkDCExpertRestoreUsbKey.sh /tmp/restore-9.0.0.464.iso`
4. Answer the prompts as appropriate.

## Desktop Client Installer

Download the desktop client from the web interface of a deployed Data Center Expert.
If the client is needed before deployment, you can download it here. [Windows Client Installer](#)
