### Messaging Footnotes

<sup>1</sup> Embedded in the HP DesignJet Z9+ Printer is an i1 spectrophotometer from X-Rite. Close collaboration between HP and X-Rite ensures a reliable solution that's been thoroughly tested to meet customer demands for ease, quality, and dependability.

<sup>2</sup> Based on internal HP testing, comparing to HP DesignJet Z9+ series printers without gloss enhancer. HP Gloss Enhancer can be used on photo paper, with the exception of matte-finish papers. Not included, sold separately.

<sup>3</sup> Vertical trimmer and dual rolls included with the HP DesignJet Z9+dr 44-in PostScript® printer with vertical trimmer only.

<sup>4</sup> Up to 90% printing time reduction based on internal HP testing conducted in March 2026 using the HP DesignJet Z9+ 44-inch printer. Testing was performed on coated paper at "Best" print quality and compared Standard print mode versus Productivity print modes (Plain for Production and Coated for Production) on the same printer. Results reflect performance improvements enabled by print mode optimization. Actual performance may vary depending on printer configuration, media type, print quality, and job characteristics.

<sup>5</sup> HP Click App is compatible with Windows and Mac. HP Click Driver is compatible with Windows 11 only. HP Click Print solutions are only compatible with Original HP Ink supplies. Applicable to PDF, JPEG, TIFF, DWF, and HP-GL/2 files.
