

CHERRY MW 4500 LEFT

Ergonomic left-handed mouse in 45° design for relief of the wrist

Models may vary from the image shown

Because the mouse is tilted at 45°, you do not need to place your hand completely flat on the CHERRY MW 4500. This results in a more natural hand position, which allows you to work without fatigue and with fewer problems with your wrist and tendons. This means repetitive strain injury can be avoided, or alleviated if you already have the symptoms. The click function of the right and left mouse button can be toggled at the touch of a button – without changing the system settings. The resolution can be adjusted with a button in 3 levels up to 1200 dpi for precise navigation and perfect adaptation to your preferences. Two additional thumb buttons allow you to jump to the next page or previous page in your Internet browser by touching a button. The extra small nano receiver can remain in your laptop without problems, or will find space on the bottom of the mouse. An all-rounder for the office or for home use!

FUNCTION AND PERFORMANCE

- Wireless mouse especially for left-handers
- Particularly ergonomic form in a 45° design
- Precise sensor with 3-level, adjustable resolution

- Status LED indicates low battery charge
- Right/left click function switchable at the touch of a button
- 6 buttons and a scroll wheel
- Feels pleasant in your hand due to abrasion-resistant surface finish
- Extra-small nano receiver
