

DEFEND YOUR DEVICES, DATA, AND DOCUMENTS

Critical gaps can occur at multiple points within your imaging and printing environment. Once you understand these vulnerabilities, you can more easily reduce the risks.

IMAGING AND PRINTING VULNERABILITY POINTS

PROTECT YOUR ENVIRONMENT

MANAGEMENT
Undetected security gaps put data at risk

NETWORK
Jobs can be intercepted as they travel to/from a device

PORTS AND PROTOCOLS
Unsecured ports (USB or network) or protocols (FTP or Telnet) put devices at risk

PROTECT YOUR DEVICE

CONTROL PANEL
Users can exploit device settings and functions

DEFAULT PASSWORD
Printers can come with simple default passwords that can be easily compromised

BIOS AND FIRMWARE
Compromised firmware can open a device and network to attack

PROTECT YOUR DATA

STORAGE MEDIA
Printers store sensitive information that can be at risk

CAPTURE
Unsecured MFPs can be used to send scans anywhere

OUTPUT TRAY
Abandoned documents can fall into the wrong hands

PROTECT YOUR DEVICE

HP SECURE BOOT

The BIOS is a set of instructions used to load critical hardware components and initiate firmware during startup. Thanks to HP Secure Boot, the integrity of the code is validated at every boot cycle—helping to safeguard your device from attack.

WHITELISTING

Whitelisting automatically checks the firmware during startup to determine if it is authentic and digitally signed by HP. If an anomaly is detected, the device shuts down and notifies IT.

HP CONNECTION INSPECTOR

The HP Connection Inspector inspects outbound network connections typically abused by malware, determines what is normal and stops suspicious activity. If the printer is compromised, it will automatically trigger a system restart.

HP TRUSTED PLATFORM MODULE (TPM)

The HP Trusted Platform Module (TPM) strengthens protection of encrypted credentials and data stored on your printer or MFP.

UNIQUE ADMIN PASSWORD

All printers have a unique admin password by default, so your printer is always password-protected even without setup.

LDAP/KERBEROS USER AUTHENTICATION

These protocols allow you to authenticate the printer user through the company directory to ensure that the user only accesses authorized options and information.

ROLE BASED ACCESS CONTROL

Role Based Access Control allows the administrator to restrict user access to sensitive areas and settings of the printer by configuring different roles and assigning them to such users.

SECURITY EVENT LOGGING

Provides full visibility to quickly detect malicious threats. The security log records each event as defined by the audit policies set on each object.

78% of companies don't monitor their printers for security threats¹

80% of organizations reported at least one type of security threat/breach, either external or internal, within the last 18 months¹

64% of organizations expect an increase in security threats/breaches over the next 3 years¹

PROTECT YOUR DOCUMENTS

PULL PRINTING

Celiveo Enterprise is a fully integrated secure printing and tracking solution.² This access control-based function has end-to-end tracking and reporting to protect sensitive information and media, and reduce unclaimed print jobs. It helps boost productivity and keep abandoned documents from falling into the wrong hands. HP large format printers are also compatible with other third-party pull printing solutions.

ENCRYPTED PIN PRINTING

When users send confidential print jobs, they can assign a PIN to the document on the printer driver. The document will then be held in the printer until the user enters the PIN at the device. This way the user can be sure their confidential document won't be left unattended. With encrypted PIN printing, document data is encrypted when the document is sent to the printer to protect document confidentiality through the network.

PROTECT YOUR PRINTING ENVIRONMENT

UPDATE DEVICES WITH THE LATEST FIRMWARE/OS

HP JetAdvantage Security Manager helps you reduce cost and resources to establish a fleet-wide security policy, automate device settings remediation, and install and renew unique certificates.³ The Instant-on Security feature included with HP JetAdvantage Security Manager automatically configures new devices when added to the network or after a reboot.

COMPLIANCE AUDIT REPORTING OF PRINT FLEET SECURITY

Use HP JetAdvantage Security Manager to create proof-of-compliance reports that demonstrate the application of security policies to printers and the securing of customer data.

COMPLIANCE INFRINGEMENT CAN HURT YOUR BUSINESS

Unprotected or under-protected endpoints create more opportunity for cybercrime. To help counter the growing threat, government bodies across the globe are implementing strict security regulations that require organizations to better protect customer information. It's crucial to deploy devices and solutions—like HP DesignJet printers and HP JetAdvantage Security Manager—that can help you meet compliance requirements and protect your business information from security threats.

PROTECT YOUR DATA

AT REST

SELF-ENCRYPTED HARD DRIVE

Protects sensitive business information stored on the hard drive with built-in encryption.

SECURE FILE ERASE

Ensures that no data is left behind in the printer after your files are deleted from the hard disk.

SECURE DISK ERASE

Erases all information from the printer's hard disk, making it impossible to recover sensitive data.

IN TRANSIT

ENCRYPTED COMMUNICATIONS

Standard encryption protocols 802.1x or IPSec use encrypted network standards to protect data traveling over the network.

PRINTERS THAT PROTECT, DETECT, AND RECOVER

HP LARGE FORMAT PRINTERS

Designed to help reduce risk, improve compliance, and protect your network end-to-end, HP large format printers provide embedded features and add-on solutions that can help you defend your printers and network.

HP DESIGNJET XL 3600 MFP SERIES

The most immediate, robust⁴ MFP for demanding environments.

For more information, please visit:

[HP DesignJet XL 3600 MFP series](#)

HP DESIGNJET T1600 PRINTER SERIES

Meet deadlines with the fastest print speed, and with a radically simple printing experience.

For more information, please visit:

[HP DesignJet T1600 Printer series](#)

HP PAGEWIDE XL & PRO PRINTER SERIES

The fastest large-format printing.⁶ High-quality printing made simple and secure.

For more information, please visit:

[HP PageWide XL Printer series](#)

HP DESIGNJET T2600 MFP SERIES

A seamless experience for unprecedented collaboration, with the best network protection.⁷

For more information, please visit:

[HP DesignJet T2600 MFP series](#)

HP DESIGNJET T1700 PRINTER SERIES

Empowering HP DesignJet printer for CAD/GIS work groups.

For more information, please visit:

[HP DesignJet T1700 Printer series](#)

HP DESIGNJET Z6 POSTSCRIPT® PRINTER SERIES

High-definition prints, fast. More quality with fewer inks.

For more information, please visit:

[HP DesignJet Z6 PostScript® Printer series](#)

HP DESIGNJET Z9+ POSTSCRIPT® PRINTER SERIES

Professional photo prints fast, simple. More quality with fewer inks.

For more information, please visit:

[HP DesignJet Z9+ PostScript® Printer series](#)

HP DESIGNJET Z6 PRO 64-IN PRINTER

The most precise maps with dual roll productivity.⁸

For more information, please visit:

[HP DesignJet Z6 Pro Printer](#)

HP DESIGNJET Z9+ PRO 64-IN PRINTER

Highest professional photo quality at top production speed.⁹

For more information, please visit:

[HP DesignJet Z9+ Pro Printer](#)

1. Spiceworks survey of 501 IT decision-makers in North America, EMEA, and APAC, on behalf of HP, June 2018.

2. The HP DesignJet T1700 Printer series, Z9+ and Z6 PostScript® Printer series, and HP PageWide XL printers include the fully integrated Celiveo Enterprise Solution.

3. HP JetAdvantage Security Manager must be purchased separately. To learn more, please visit hp.com/go/securitymanager.

4. Based on comparable printers using LED technology and capable of printing 4-6 D/A1 pages per minute and which represent more than 70% of the share of low-volume LED printers in the US and Europe according to IDC as of November 2018. Fastest first page out and up to 10 times less energy consumption based on internal HP testing for specific use scenarios. Operational costs based on low-volume LED technology under \$17,000 in the market as of November 2018. Operational costs consist of supplies and service costs. For testing criteria, see hp.com/go/designjetclaims.

5. HP Web JetAdmin is available for download at no additional charge at hp.com/go/webjetadmin.

6. Based on testing commissioned by HP and performed by Sogeti in October, 2020. Fastest compared to alternatives for large-format printing of technical documents, GIS maps, and point-of-sale (POS) posters under \$200,000 USD as of October, 2020. Fastest response compared to the HP PageWide XL Pro S200 Multifunction Printer.

7. Applicable to the HP DesignJet T1700 Printer series, HP DesignJet Z9+ PostScript® Printer series, HP DesignJet Z6 PostScript® Printer series, HP DesignJet Z9+ Pro Printer, HP DesignJet Z6 Pro Printer series, HP DesignJet XL 3600 Multifunction Printer series, HP DesignJet T2600 Multifunction Printer series, HP DesignJet T1600 Printer series, HP PageWide XL Printers, and HP PageWide XL Pro Printers. Advanced embedded security features are based on HP review of 2021 published embedded security features of competitive printers, as of March 2021.

8. Highest precision based on testing commissioned by HP and performed by Sogeti in March 2021 comparing the HP DesignJet Z6 Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, by comparing the minimum distance between two lines necessary to correctly reproduce the lines (the lower the distance, the higher the precision) printing on coated paper and Normal mode. Dual roll option must be purchased separately.

9. Highest professional photo quality based on widest color gamut. Testing commissioned by HP and performed by Sogeti in January 2021 comparing the HP DesignJet Z9+ Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, comparing gamut volume in CIE Lab units (the higher, the better) printing on HP Premium Instant-dry Satin Photo Paper and Best mode. Test performed under the same conditions in all printers measuring the TC9.18 target with the i1 spectrophotometer from X-rite.
