(1) Compared with Logitech M185. Left-click dBA level measured by an independent lab at a distance of 1 meter.

(2) Battery life may vary based on user and computing conditions.

(3) Require Logi Tune downloaded on individual devices.

(4) Buttons customization available with the Logi Options+ app. Available on Windows and macOS at logi.com/optionsplus

(5) Available on Windows and macOS at logi.com/tune

(6) Wireless range may vary depending on operating environment and computer setup.

(7) Compared with other commonly deployed wireless protocols for enterprises. Test conducted by Logitech in controlled conditions comparing, all else the same, Logi Bolt USB receiver connection latency to competing wireless protocols. The test simulated conditions from no/low noise to very high noise defined as three Wi-Fi access points set at 1000 mW each distanced at 2 meters from the test subject with additional adjacent wireless devices set at 8 mW each: two active Bluetooth devices and three active Logi Bolt product users distanced at 0.5 meters.

(8) Minimum 48% post-consumer recycled content of the total plastic components. Excludes plastic in printed wiring assembly (PWA) and packaging.

(9) Device basic functions will be supported without software for other systems than Windows and macOS.
