

MAXHUB

NON-TOUCH DIGITAL DISPLAY

Focus on what you really need for a conferencing

Conventional meeting room painpoints

LOCATION

Traditional meeting room

EQUIPMENT

Projector, screenshare gears, separate audiod and carmera devices

PAINPOINTS

1. Unclear image due to the negativity of ambient light
2. The graphic and texture is not sharp enough for an FHD resolution projector
3. Extra expense on screensharing hardware
4. Smart solution for blocking privacy info while screensharing
5. Additional audio and camera do not perform well due to negetive location because was not bundle solution originally
