

WD ReadyView™ SURVEILLANCE SYSTEM

The mobile-first, all-in-one
surveillance solution

- NVR setup in 4 steps¹
- Value bundles with everything included
 - 2MP Camera Bundle includes (4) 2MP, HD cameras
 - 4MP Camera Bundle includes (4) 4MP, cameras with Intelligent Video Surveillance (IVS) features
 - 8MP Camera Bundle includes (4) 8MP, 4K cameras with Intelligent Video Surveillance (IVS) features
- On-site WD Purple® storage eliminates monthly fees
- Mobile app
- Expandable system

When you need quality surveillance, the WD ReadyView™ Surveillance System is the mobile-first, all-in-one solution with a simple NVR setup.¹ This complete system includes four 4K (8MP) or 4MP or 2MP, dust- and water-resistant² cameras with night vision and motion detection, the award-winning WD Purple® drive storage that's designed for 24/7 always-on surveillance recording, and no monthly fees.

WD ReadyView SURVEILLANCE SYSTEM

Product Features

Easy Setup

Set up your NVR in just four simple steps,¹ including downloading and connecting the mobile app.

Three Camera Bundles

There are three unique camera bundles that include four IP67 dust- and water-resistant rated, 4K (8MP) or 4MP or 2MP, metal-encased cameras with night vision and motion detection, an NVR with a WD Purple drive for video storage, and necessary cables. Our cameras are Powered Over Ethernet (PoE) so your placement isn't restricted by outlet availability.

8MP Camera Bundle

Four, 8MP cameras that are IP67 dust- and water-resistant rated² and feature metal cases, 4K resolution, night vision and area detection. This system can capture 250+ days of continuous 24/7 recording.⁴

4MP Camera Bundle

Four 4MP cameras that are IP67 dust- and water-resistant rated² and feature metal cases, 1520p resolution, night vision and Intelligent Video Surveillance (IVS). This system can capture 120+ days of continuous 24/7 recording.⁴

IVS includes intrusion, trip line and intelligent identification features. Any of these events will trigger actions you define (recording, snapshot or alert notification):

- Intrusion allows you to set pre-defined virtual regions and specific advance parameters.
- Intelligent identification identifies when the camera is out of focus or when there's a scene change.
- Trip line defines a virtual line in the viewing area.

2MP Camera Bundle

Four 2MP cameras that are IP67 dust- and water-resistant rated² and feature metal cases, HD/1080p resolution, night vision and

motion detection are included. This system can capture 90+ days of continuous 24/7 recording.³

Mobile App

Get hand-held control of your powerful surveillance system. Using just your smartphone, you can easily set up your complete system by scanning the camera QR codes. You'll be able to view live camera footage or even previously saved footage from anywhere in the world with an internet connection. And you can receive notifications when your cameras detect motion or other smart interactions.

WD Purple

The trusted, award-winning WD Purple drive comes in the box. It's purpose-built for 24/7, always-on surveillance systems, and keeping your footage on site means there are no additional monthly fees.

External Backup

When you want to keep a separate or additional copy of your surveillance video, you can easily transfer your recordings from the WD ReadyView™ Surveillance System by plugging in an external USB storage drive such as the My Book® drive.

Expandable System

This ONVIF®-compliant system can expand up to 8 compatible cameras (4 are included) to grow with your needs. The system is smart to recognize when additional WD ReadyView™ 4MP HD or 8MP Ultra HD cameras have been added and installed to automatically upgrade and provide the additional smart features. And the easy-to-use app can deliver software updates to the NVR and all the cameras straight from your smartphone.

System can be expanded up to 8 cameras with ReadyView 2MP, 4MP, or 8MP cameras.

Product Specifications

MODELS

6TB-8MP WDBAEM0060HWT-HESN
4TB-4MP WDBELL0040HWT-HESN
2TB-2MP WDBULT0020HWT-HESN

CONTENTS

8MP Camera Bundle includes:

- 1x 6TB NVR
- 1x 6.5ft Ethernet cable
- 4x 4MP PoE IP cameras
- 4x 100ft Ethernet cables
- 4x Water-resistant Ethernet cable coupler
- 1x power adapter (US)
- Window stickers
- Quick install guide

4MP Camera Bundle includes:

- 1x 4TB NVR
- 1x 6.5ft Ethernet cable
- 4x 4MP PoE IP cameras
- 4x 100ft Ethernet cables
- 4x Water-resistant Ethernet cable coupler
- 1x power adapter (US)
- Window stickers
- Quick install guide

2MP Camera Bundle includes:

- 1x 2TB NVR
- 1x 6.5ft Ethernet cable
- 4x 2MP PoE IP cameras
- 4x 100ft Ethernet cables
- 4x Water-resistant Ethernet cable coupler
- 1x power adapter (US)
- Window stickers
- Quick install guide

INTERFACES

1x HDMI
1x VGA
1x RJ-45 10M/100M
8x 100Mbps PoE
2x USB 2.0
1-ch RCA Audio In
1-ch RCA Audio Out

DIMENSIONS

NVR:
Length: 270 mm (10.63 in)
Width: 205 mm (8.07 in)
Height: 42 mm (1.65 in)
Weight: 2.89 kg (6.37 lb)

8MP Camera:

Length: 191.3mm (7.5")
Width: 72.6mm (2.9")
Height: 70.9mm (2.8")
Weight: 0.50kg (1.10lb)

4MP, 2MP Camera:

Length: 167.90 mm (6.61 in)
Width: 66.20 mm (2.61 in)
Height: 62.40 mm (2.46 in)
Weight: 0.40 kg (0.88 lb)

OPERATING SPECIFICATIONS NVR:

Operating Temperature: 0° C to 55° C
Non-op Temperature: -30° C to 70° C
Operating Relative Humidity: 5%-95%
Non-op Relative Humidity: 5%-95%

8MP, 4MP, 2MP CAMERA:

Operating Temperature: -30° C to 60° C
Non-op Temperature: -30° C to 70° C
Operating Relative Humidity: 10%-90%
Non-op Relative Humidity: 10%-90%

SYSTEM COMPATIBILITY

Router and internet connection
H.265, H.264, MJPEG
ONVIF® -compliant

Mobile device with iOS 9+ or Android™ 4.4+

SYSTEM SPECIFICATIONS

8MP: 3840 X 2160
4MP: 2592 x 1520
2MP: 1920 x 1080

Aspect Ratio: 16:9

Max Number of Channels (NVR): 8

Viewing Angle (H):

8MP 112.7°

4MP 86.4°

2MP 86.5°

Viewing Angle (V):

8MP 60.1°

4MP 43.6°

2MP 44.1°

Viewing Angle (O):

8MP 146.5°

4MP 112.3°

2MP 106.4°

Night Vision Range: 98 ft (29.8 m)

Weatherproof Rating: IP67

Motion Sensor: Yes

Power over Ethernet (PoE) : Yes

Drive Bays: 1

LIMITED WARRANTY

1 year

¹After cat. 5 wiring and cameras are installed. ²Cameras can be submerged in up to 1 meter of water for up to 30 minutes. ³Number of days of video that can be stored are provided for illustrative purposes only and are based on recording 15% motion events at 1200 Kbps (average) and 85% static image at 120 Kbps with four cameras at 1920x1080 HD @ 25fps, H.265. Your results will vary based on file format, file size, amount of motion detected, resolution, settings, software and other factors. ⁴Number of days of video that can be stored are provided for illustrative purposes only and are based on recording 15% motion events at 1700 Kbps (average) and 85% static image at 180 Kbps with four cameras at 1920x1080 HD @ 25fps, H.265. Your results will vary based on file format, file size, amount of motion detected, resolution, settings, software and other factors. ⁵Number of days of video that can be stored are provided for illustrative purposes only and are based on recording 15% motion events at 2000 Kbps (average) and 85% static image at 200 Kbps with four cameras at 3840x2160 UHD @ 25fps, H.265. Your results will vary based on file format, file size, amount of motion detected, resolution, settings, software and other factors.
