

Empower your connected workforce

Unlock the value of your technology investments
and accelerate your business transformation.

 SERVICES

Your computing environment is mission-critical

HP Services help IT deliver a secure, seamless computing experience, from the time a new device comes out of the box until it returns to a box for recycling or repurposing. Our digital and cloud-based solutions automate and simplify previously manual processes, helping create more productive workdays for employees and fewer to-dos for IT.

HP Services

Can your IT services support modern hybrid work?

50% of users work from more than one location¹

68% of executive teams are re-evaluating company culture for hybrid work²

75% of employees expect work-from-home employer support³

Give employees great device experiences from day one

Preparing, maintaining, and updating devices are time- and labor-intensive tasks. But what if you could give employees a positive new-PC experience, right out of the box? Make updating and maintaining older devices less labor-intensive for IT? HP configuration, deployment, and cloud-based, zero-touch setup services get and keep PCs and people up and running faster—with less hassle for IT.

Services that go beyond hardware

Enable onboarding experiences that are simple, intuitive, and hassle-free—for both IT and employees—with services that enable:

- Pre-provisioned devices
- Intuitive out-of-the-box PC experiences
- Faster onboarding

Configuration services⁴

- Custom System Settings
- Device Provisioning⁵
- Dynamic Configuration
- Image and Application
- Integration and Packaging
- Asset Labeling and Tagging

Deployment services

- Logistics⁶
- Installation and Data Migration⁴
- Deployment and Project Management⁶

HP Chrome Device Management Enrollment Service⁷

Have your Chrome OS devices pre-provisioned and registered for subsequent enrollment into your Google Admin console using the power of zero-touch enrollment (ZTE), with no IT intervention required. Ready-to-go devices can help you save time and money.

HP Custom System Settings Services

Go beyond factory default settings and accelerate your workforce productivity with PCs that are ready for your users and IT environment, upon arrival. We can further secure your devices by configuring HP security features on the device.

HP Deployment Project Management Service

Get the experience you need with our qualified project managers, who will customize and complete a plan for your business to provide a successful and seamless PC deployment.

HP Device Provisioning Services

Simplify device provisioning with a comprehensive suite of modular services that helps lower costs, improves the user experience, optimizes productivity, and enables faster deployments for today's modern IT environment.

HP Dynamic Configuration Service

Extend your imaging environment into HP's factories or staging centers through a secure VPN connection. Directly control key configuration activities for your new PCs just before shipment, including images, applications, domain join, HDD encryption, BIOS settings, and end-user device personalization.

HP Image and Application Services

Save IT time and resources with our broad range of device imaging solutions so that your new PCs arrive tailored to your needs and are ready to use right out of the box.

HP Installation and Data Migration Services

Put our expertise to work for you with services that make physical PC installations and setup easy and affordable. Services can also be customized to your exact needs with options for data migration from your old to new PC, configuration of user settings, and connecting your new device to the network.

HP Integration and Packaging Services

Deliver complete solutions to your users with HP and third-party hardware, accessories, and custom documents delivered as one package.

HP Labeling and Tagging Services

Protect your investment and manage and track your assets with physical and electronic tagging.

HP Logistics Services

Make PC deployments faster, easier, and on your terms, with flexible delivery options that include door or dock, inside delivery, and home delivery—with plenty of additional options, too. Just pick the day and the location, and we can take care of the rest.

“HP brings global harmonization and standardization, from configuration and deployment to device security.”

—Matthias Schmidt, Head of Workplace Systems and Services, Festo

Ensure rapid repair and replacement—wherever it's needed

Supporting devices is a never-ending job, leaving your IT teams playing catch-up as they troubleshoot issues they couldn't have anticipated—or could they? HP Services deliver fast, reliable device support even across your geographically distributed workforce. Employee device issues get resolved with minimal impact to workers and IT teams.

Services that bypass long wait times

Enable faster fixes and streamlined issue resolution that meet the needs of your distributed workforce.

- Faster help-desk ticket resolution
- Remote workforce support
- Specialized coverage options

HP Active Care Service

Achieve optimal uptime and fast resolution support on HP devices. With remote technical support, predictive device health analytics, remediation services, and Next Business Day Onsite Response, HP Active Care keeps your employees up and running in the office or on the go.

HP Priority Services

Enhance enterprise IT performance with premium global support from agents who work with your IT staff to address the technological challenges you face today, so your company can quickly get back to business.

Hardware Support Exchange Service

Don't waste time on unexpected hardware defects or issues with delivery of replacement products or parts within a specified time.

Hardware Support Offsite Return Service

Enjoy high-quality return-to-HP service levels with remote telephone support and offsite repair for eligible products at an HP-designated repair center. The service includes offsite repair or replacement, materials and parts, labor, and the cost of the return shipment.

Hardware Support Onsite Service

Maximize productivity with next-business-day onsite support from a trained HP support technician who travels to your employees' locations.

Post-Warranty Services

Extend equipment availability and productivity beyond the warranty until you are ready to replace it.

Additional Protection Coverage Service

Safeguard your hardware investment against accidental damage, loss of equipment, or loss of sensitive data.

“HP has changed our entire outlook. We were a business that wanted to fix everything itself. It has taken us some time to realize the value of leaning on a partner.”

—Tommy Van Roye, Global Head of ICT Production, Kinopolis Group

Safeguard every endpoint

Does your IT team have the time and capabilities needed to fend off cybercriminals who are more sophisticated, organized, and determined than ever? Fortify your first line of defense with multilayered HP Wolf endpoint security solutions that protect people, devices, and data—no matter where, how, or when they need to work.

HP Wolf Enterprise Security⁸

HP Wolf Enterprise Security implements a zero-trust approach to your endpoint security to stop even undetectable threats. Defense-grade, hardware-enforced isolation and containment technology helps security-mature organizations stay ahead of modern threats.

HP Wolf Protect and Trace⁹ Service

Reliably protect data, track your fleet of high-end HP devices, and keep unauthorized users from accessing your files and documents on your network. Powered through HP TechPulse,¹⁰ HP Wolf Protect and Trace provides a complete hardware-enforced find, lock, and erase service.

“The devices are better-protected against hacker attacks, even though they are no longer behind our firewall... [They’re] more secure thanks to HP tools and services.”

—Holger-Steffen Stapf, Head of IT, DLG

Get ahead of issues—before they become problems

Anticipate, identify, and resolve endpoint problems with artificial intelligence and automation that give IT more visibility and control of issues—before they impact productivity and ultimately the business.

Services that go beyond data dashboards

Get relevant, AI-driven insights that bring clarity and guide better decision-making.

- Cloud-based device telemetry
- Analytics on device health, application usage, and more

HP Adaptive Endpoint Management Service¹¹

Decrease your reliance on on-premises IT infrastructure and optimize the employee experience by moving your endpoint management and legacy apps to the cloud with an HP managed service.

HP Proactive Insights¹²

Leverage HP's global expertise in PC health analytics to optimize device performance, security compliance, and satisfaction. Employee satisfaction surveys can be correlated with PC performance data to surface IT improvement opportunities.

“This type of (preemptive) intervention helps decrease stress for both employees and IT staff, and we can focus our abilities on more productive tasks.”

—Akihiko Nishida, President, Volkswagen Japan Sales

Stay in contact with your conferencing tools

Avoid communication disruption with collaboration services that give IT proactive visibility into the health of your HP audio and video conferencing tools.

Services that go beyond troubleshooting

Provide proactive awareness for IT and hassle-free meetings for employees, every time.

- Real-time proactive device monitoring
- Advance notifications
- Rapid issue resolution

HP Conferencing Implementation Service

Bring unified communications to your meeting rooms and huddle spaces and enable greater collaboration with your conferencing solutions.

HP Presence Manager^{13,14}

Manage updates and know the health of devices with real-time monitoring.

HP Presence Insights^{14,15}

Get real-time visibility into room experiences and utilization via a single dashboard.

“HP is very well-known and respected; they provide us with industry expertise, and we have a valued collaboration that is helping us scale and grow.”

–Benjamin Faillie, Cluster Lead of Infrastructure, SD Worx

Securely recover, repurpose, or recycle end-of-use devices

Phase out end-of-use devices securely and responsibly with HP recover and renew services, providing options that benefit both your business and the environment.

Services that go beyond device retrieval

Explore options for recovering, repurposing, or recycling devices, helping maintain a healthier planet for all and a better world for future generations.¹⁶

HP Deinstallation Services

Let HP experts handle the deinstallation of your PCs, displays, and peripherals and prepare them for transport so your IT staff can focus on higher-priority projects.

HP Sanitization Services

Protect your confidential data before removing your old devices. Secure your information and get peace of mind when we completely erase the data from your devices or permanently destroy the storage media in accordance with the latest industry standards.

HP Recycling Services¹⁷

Take advantage of efficient recycling of old devices. We are committed to improving our planet by reducing waste and environmental impact through our recycling policies and standards.

HP Device Recovery Service

Securely retire your end-of-use devices with expert data erasure services, receive residual value, and help enable the circular economy for greater sustainability.

Worry-free computing experiences for anywhere, anytime work

When IT is at its best, so are your people. Give your workforce the smooth, continuous endpoint experiences needed for anytime and anywhere productivity with comprehensive support from HP.
