

3D MAGIC PEN™

Perfect for STEAM
Curriculum Lessons!

MPEN

Creating hand-drawn, three-dimensional objects was not a reality before, but now it is with the all-new 3D Magic Pen™! Kids can turn their 2-dimensional fantasy into 3-dimensional reality! Dinosaurs and doodles, dragons and trolls – there is no limit to what you can make, so let your imagination go!

Apart from creativity and fun – expanding their imaginations, and learning about construction – the 3D Magic Pen™ is a great way to foster learning, too. Art stimulates creative thinking, essential in implementing cognitive skills, helps develop better communication, problem-solve, and increase overall literacy.

Very easy to use, simply plug in the 3D Magic Pen™, watch for optimal temperature then press for action. The self-feeding motor will advance the filament for you.
